- It means more reviews and consultations, which add costs to councils. Nearly every recent example of changing governance structures in NZ has resulted in lesser outcomes for tax/ratepayers, with increased ongoing costs from bloated administration. Learn from the past and keep things as they are. We have equal representation for all people now. Also, if more voices for the land/environment mean added resource consent compliance, that would be counteracting political parties' desires to see more housing built. Record immigration means more houses needed desperately.

 A separate Maori ward is unnecessary for the proper functioning of Council. A separate Maori ward would, by definition, be raced-based, and as such would add further to the divisiveness of raced-based decisions..

 I believe that Maori representation in decision making in local affairs should be enshrined formally, rather than just hoping that Maori will be elected in 'general' seats, with no guarantee of who will stand and whether an individual 'represents' Maori.

 Having a Maori ward undermines democracy. We can have a democratic form of government or we can have indigenous sovereignty. They can't coexist and we can't have them both

- Maori currently have the same access to Council as everyone else in the District. I therefore strongly object to spending rate payer funds creating unnecessary Maori wards. There is also no doubt that creating Maori wards will result in Maori a minority group in our community having a disproportionate voice on Council again there is no good reason for this un democratic proposal. Please retain the status quo and if Maori want to be on Council then they can stand just like everyone else.

- As New Zealanders we believe in equality and not segregation by race or ethnicity. Setting up a segregated electorate or ward is nothing more than a creation of a formally legislated acknowledgment that equality does not and will not ever exist. Rather that segregation of the races and people of New Zealand is and shall be the way of our nation from here and into the future. We are either equal or we are not. Segregation in the form of the creation of separate but equal was tried and utterly failed in the USA. One would think that we here in New Zealand learned from that failed theory and would therefore advance a truly equal form of government by accepting that ALL people have individual beliefs that are not necessarily tied to their race or ethnicity and therefore best represented by open and free elections. Elections not tied to race, religion, ethnicity, etc. But rather representation by those of ideas and philosophies of a free and independent people desiring a better world for all.

I think what Kapiti Coast District Council should do is follow the lead of Environment Canterbury and pursue a local bill via Parliament similar in form to The Canterbury Regional Council (Ngāi Thai Representation) Act that would allow each iwi to appoint their own representative to the full council with full decision-making powers. [REDACTED] I did suggest this when the second paper on establishing a Māori Ward was in front of council, and the two iwi representatives present indicated that this was an option they were interested in exploring as they hadn't previously been made aware of it being an option. This option would recognise the unique role that our three iwi have as mana whenua for our district and better reflect KCDC's memorandum of understand with them.

- New Zealand's constitutional Rights were established by the Northern Tribes Declaration of Independence for all NZ citizens. Current government without Maori representation as an equal partner based on the Treaty of Waitangi is an illegal regime. Establishment of Maori Wards is the first step in representation for all New Zealanders

Council should not formally put itself in a position where it makes decisions based on ethnicity or race. It is Council's role to be representative of all stakeholder groups and residents in its rohe. Local iwi are to be commended for not actively seeking to gain formal representation. This speaks highly of them and their desire to actively partner with Council, rather than have formalised representation.

- Having lived both at Waikanae Beach and in rural Reikorangi for many years, I consider, there are already good measures in place to obtain the views of all different cultures in Kapiti. Race relationships are positive throughout our area. Selecting one group according to ethnic background could possibly lead to unwelcome division in our community. Kapiti is a wonderful area where presently there are no apparent significant political, racial or cultural problems. Long may this situation continue.

- I believe that there are insufficient numbers of Māori currently in Kāpiti to effect their representation through the current ward system. Moreover, Kāpiti is white and conservative and does not naturally give weight to (or perhaps recognise) the interests of Māori.

 Not on board with any race-dividing policies. Anyone can stand for council and should do so if they want to represent themselves, their family, their people and their beliefs. Others then get the opportunity to vote, if they also believe in those values and beliefs. Meritocracies are divisive.

- Q1. **Do you support Council establishing a Māori ward in Kāpiti?Kei te tautoko koe i te whakatūnga o tētahi rohenga pōti Māori?** No/Kāo
- Q2. **What are your reasons for or against establishing a Māori ward in Kāpiti?He aha ō take mō te whakatū, kore whakatū rānei o tētahi rohenga pōti Māori i Kāpiti?**

It is neither warranted or needed.. We should be working toward having a "one nz" rather than dividing. If you think it is necessary, what about other ethnic groups like the Chinese or Islanders. Maori have the same ability to stand for council as everyone else rather than making Maori a separate case. Why is question 4 even in this survey??
- Q3. **Are you on the Māori electoral roll?Kei te rārangi pōti Māori koe?** No/Kāo
- Q4. **Would you consider enrolling on the Māori electoral roll in the future? Ka whai whakaaro koe ki te uru ki te rārangi pōti Māori ā ngā tau e tū mai nei?** No/Kāo
- Q5. **If you whakapapa Māori, what are your iwi affiliations?Mēnā he whakapapa Māori ōu, ko wai ō iwi?** not answered
- Q6. **Where do you live? E noho ana koe ki whea?** Waikanae

 Although consideration and respect of Māori input is important, the continued segregation into "us and them" is not conducive to a united population. The council should continue to not have a separate Māori ward and instead continue to consult where appropriate

- I believe that dividing the country, services, local government based on ethnicity is not democratic, and divisive to a modern society. Modern values promote inclusion to your race, and gender, to mention a few. NZ is a multi- ethnic society, with many different and minor ethnicity represented. Giving one ethnic group special representation over another, is polarising and dangerously divisive. Every person that has a right to vote should have exactly the same rights, privileges, and representation as the next., Giving Maori, or any group for that matter, special representation s divisive. That doesn't diminish the cultural significance of Maori, and their contribution to Aotearoa. In southern Africa, where I am from, there was a system called Apartheid. It divided people and gave special privileges to one minority. This was a system designed to protect that minority. If a Maori, an Asian, an Indian, a European, a African is given special representation over another, that denys other ethnic minorities the opportunity to participate in an even playing field, where they dont have special representation.

 It's another level of beauracuacy, it will only be Maori who will be able to vote them onto the Council which is undemocratic. Anyone can stand for Council so there is no need for a special seat for Maori. It is wrong on so many levels. One rule, one law for all. A divided Country is being created & this Country is fast being considered third world by many Overseas.

- Article 2 of Te Tiriti o Waitangi notes self-determination/chieftainship in the Te Reo signed document through its use of the term "tino rangatiratanga". I think a Māori ward supports the tenants of the treaty and provides a stronger voice for Māori in the community. I think it is important that these tenants are evidenced as followed at multiple levels of society and in the different governance structures we are governed under. A Māori ward is likely to be a good thing. Kudos to the people who have been driving for this consultation.

 Given the high level of elderly pakeha in the area I believe it is in the best interests of the whole community to have a māori ward in an effort to be a more cohesive and welcoming community for all. The fact Julian Batchelor held meetings here with high attendance is evidence enough that māori needs more representation in this area.

I believe it is undemocratic to have people on council boards/wards who are not elected by the voting public. I think it is racist & offensive to have ANYTHING based on race/ethnicity.If Maori (or anyone) want to stand for council they have as much opportunity as anyone else.

Q1. Do you support Council establishing a Māori ward in Kāpiti? Kei te tautoko koe i te whakatūnga o tētahi rohe Māori? Yes/Ae

Q2. What are your reasons for or against establishing a Māori ward in Kāpiti? He aha ō take mō te whakatū, kore whakatū rānei o tētahi rohe Māori i Kāpiti?

Māori under-representation on governance, management, and leadership positions within local government is concerning - especially considering the impacts these decision-making tables have on land, the public, and Māori who have systemically been disregarded. Systemic and implicit racism is clear, particularly in the lead up to the next election. In a predominantly Pākehā region such as Kāpiti it is highly likely that racist rhetoric will emerge (implicitly or explicitly), and should be addressed (or attacked) as discriminatory and despicable behaviour. In light of the narrative currently (re)occurring within politics, the Council should remain clear on processes such as code of conduct and continue to support this important kaupapa with clear data, statistics, historical accounts, scientific evidence and non-bias methodologies.

- A perspective that includes Te Ao and Tikanga Māori with the ability to vote on relevant matters would be a valuable addition to the governance process. There are contexts where these are quite different to the pakeha "western" way of viewing and making decisions, particularly around care for the environment and decisions regarding conservation, land management, climate mitigation and so on.

- I support the decision of mana whenua (whether that is yes or no) in determining whether there should be a Māori ward. Mana whenua are in the best position to determine whether they consider a Māori ward more beneficial than the current arrangement & Council's decision should facilitate this.

 Keep it simple no more expense on rate payers. I'm NZ European and Maori and registered on both voting rolls and there is ample representation for all ethnicity's in NZ one vote to each person of legitimate age and registered as a New Zealander regardless of ethnicity we are all equal leave it that way.

- I am against racial divisions of any sort. I see racial wards as segregating society rather than bringing it together. Favouring one racial group demeans other racial groups. All people already have the opportunity to participate in council organisations and activities, and in practice there is a high level of Maori representation in national and local politics without having a racially-defined quota.

 Maori don't need extra representation - they already have plenty of representation and are already consulted on every single aspect. We are one people all working together. We are all kiwis. One person, one vote. Stop trying to divide us by race - it is causing harm to New Zealand.

Kapiti as a whole demonstrates an example of partnership that transcends the need to embed racism into our environment and governance structures. To specifically create a Maori ward does embed race and denigrates our efforts to establish a free and fair democracy for all Kiwis.

- From its description the existing Te Whakaminenga group represent all Māori groups in Kāpiti. A single ward councillor would not, and may not have the confidence of Te Whakaminenga on some issues, leading to dissatisfaction. If the goal is to have a Māori vote at the council table perhaps better to let Whakaminenga nominate different people to attend council meetings when matters relevant to them are on the agenda. They already have voting on many committees and sub committees. If it ain't broke, don't fix it. And who knows what a local government representation review might result. We have just finalised one review! Let sleepingetc.

 Wards that aren't split equally gives those voting on in the smaller ward more weight. The Maori ward will undoubtedly be smaller. This is undemocratic and should not be considered in a democratic society. If there were more wards created to ensure equal weighting then a Maori ward could be considered

Q1. Do you support Council establishing a Māori ward in Kāpiti?Kei te tautoko koe i te whakatūnga o tētahi rohenga pōti Māori? No/Kāo

Q2. What are your reasons for or against establishing a Māori ward in Kāpiti?He aha ō take mō te whakatū, kore whakatū rānei o tētahi rohenga pōti Māori i Kāpiti?

In proposing a separate Māori Ward, what KCDC is doing is ignoring the fact that various tribes arrived in New Zealand at different times, lived separately, and were unrelated, except for being human beings. KCDC has then grouped all these different identities together, overlooking their distinct tribal identities, wars, languages, and cultural differences. They have imagined that they are all one people, 'Māori,' a noun that did not even exist in 1840 when the Treaty of Waitangi (ToW) was written and signed. Indeed, one only has to read the 1840 documents that constitute the ToW, the very document KCDC states they are honouring by suggesting separating Māori from other New Zealanders. However, the noun 'Māori' is not found in that document. Instead, what we find is the adjective 'maori' with a small 'm,' which means 'ordinary as opposed to something higher' and has nothing to do with whakapapa, ethnicity, or any other racial undertones that KCDC may suggest. The word 'maori' in the ToW distinguishes between the ordinary people ('tangata maori') and the Rangatira (chiefs) who signed the ToW. The use of the word 'maori' in Article Three of the ToW signifies that, as a result of the cession of sovereignty to the Queen, those two groups, ordinary people and chiefs, will have equal rights, which are the same rights as the people of England. KCDC ignores this treaty and the equal rights it promised all New Zealanders. Despite 200 years of intermarriage, KCDC are attempting to separate the citizens of Kapiti on racial grounds, which the community should reject. After all, the experts. Anthropological societies worldwide, rejected the concept of race as having any scientific basis last century and instead concluded that race is a social construct. Contrary to the science, the Māori Land Act and numerous other statutes define Māori as 'a person of the Māori race and includes any descendant.' Only individuals of Māori descent can enrol in a Māori electorate to vote for candidates to occupy Māori seats in Parliament or lodge a claim with the Waitangi Tribunal. However, I have written to the Waitangi Tribunal, which operates within the Ministry of Justice, asking for a definition of what a Māori person is, and they do not have one. This fact is highly problematic and is becoming very controversial. Increasingly our political parties are also becoming aware of how critical race theory has been taught in our schools and has permeated through our country like a cancer. For instance, concerning Māori ancestry and ethnicity, the New Zealand Government states the following: 'Persons of Māori descent who do not identify as Māori should not be counted as Māori for most general policy and legal purposes. They are New Zealanders of Māori ancestry, distinct from persons who consider themselves culturally Māori.' (www.msd.govt.nz) So, a person who fits the whakapapa requirement of being a Māori can face racial discrimination from our government based on how they define themselves. That is shocking. The Government also states, 'Similarly, the small number of persons who culturally identify as Māori but are not of Māori descent should not be considered part of the Māori population because they have no whakapapa claim.' (www.msd.govt.nz) So, a person who culturally identifies as Māori can also face racial discrimination from the government based on their ancestry. It seems our government has attributed itself as a race-defining entity without any mandate to do so. If KCDC are to follow the Government's lead, how will they know who is a Māori and who isn't? And who makes the decision and what will be the criteria? However, the common thread among all the people who live on the Kapiti Coast is that they are all related, just like the separate tribes that arrived in New Zealand over hundreds or thousands of years. They are all human beings, and so they all whakapapa. Whakapapa means genealogy, a line of descent, and all humans come from a common ancestor whether that be God or LUCA, the Last Universal Common Ancestor, no one is excluded. Whatever way you look at it, scientifically, historically, linguistically, or spiritually, there are no separate people in the Kapiti Region. All of this means that if KCDC provides different or special rights for people who think they are separate, not only will they be breaching Article Three of the ToW, but they will also be ignoring science and or God, all in the name of the cancerous critical race theory they have all bought into.

- my reading of the proposed amendments is that additional voting rights would be based on ethnicity in that being on the Maori electoral role would give additional voting options for a Maori ward seat, yet not remove any voting options as a national election does. This appears to be un-democratic based on my understanding of 1 vote 1 person. Not withstanding the above, I noted some news in July 2023 that a change to FPP or retaining STV for the voting of council is to go to Poll/Referendum within the Kapiti area, surely adding an additional question to this already planned poll/referendum to gauge democratic support (over 50%) for a Maori ward seat would be appropriate and incur limited additional cost.

 I do not agree with establishing a Māori ward in Kapiti because it shouldn't matter what nationality you are, anyone can have a chance to be voted in as a councillor on the current wards, we don't need to have a 'special' Māori ward just for Māori, isn't that racially dividing.

 Previously it has been a 'gentlemen's agreement' between particular individuals and needs to be put in place as a policy to account for different electd represenatives' and iwi chairs' personal views.

 There is already alot of consultation with Maori. All Maori are mixed race so a Maori ward is redundant. We are a multiracial society - all races should have an equal say, not segregate one race.

 this will cost more and I don't see the real benefit for the district Maori or animals. Like the Major there is a CEO who has more power due to constant in the council. Each company has a person from Maori background for cultural and language perspective which is a great asset. Better to support initiatives like Maoriland or queen Elizabeth Park or recycling ♻️ The rate payers still have to pay for rubbish collection and recycling with 3 companies each collection day is not focussed on economic or sustainable recycling.

- New Zealanders are New Zealanders with multiple ethnic backgrounds. Ethnicity should not have an effect on how we contribute as a society today. There should not be a seat at a table due to your ethnicity. You should have a seat at the table because of merit or allocation.

We are all New Zealander's and should be treated equally and have equal rights and privileges. I have no problem with people who identify as Maori being on council, but they should have the same opportunity and right as any other ethnic group. To give special privileges based on race, skin colour or ethnicity is racist. This is backed up by the United Nations. So in saying this, if people of Maori decent wish to stand for council, let them do so like any other citizen of New Zealand at election time. Otherwise democracy will be damaged.

- It is important that mana whenua are able to have a genuine say at the council table. Treaty of Waitangi principles and the specific kaitiaki role of tangata whenua require this. The existing wards do not enable the voices of Maori to be adequately represented because as a minority in every general ward the distinct voices and interests of Maori do not make it to the Council table

- If it is the wish of mana whenua that a Maori Ward be established so that they are better represented, then real leadership is required around the Council table to deliver this. Specious arguments around cost, it being undemocratic or that a clear majority of an overwhelming pakeha population should be required should be ignored. It is my view that these are often false reasons put forward by racists to maintain their dominance. It is the job of elected members to see through this and strive to provide better representation for the community and take this, albeit small, step to correcting the injustices facing Maori today who have been dispossessed of their lands and authority over them and how we govern ourselves because of the effects of colonisation. This might make uncomfortable reading, but please reflect on the current make up of the population and how overwhelmingly white and European it is in a country on the other side of the world from where such heritage stems. Also reflect on the fact that the establishment of a Maori ward is only a move to give mana whenua a place at decision making table within the framework of a European style of representation. As treaty partners, we must do better.

- As tangata whenua, Māori have rights under Te Tiriti o Waitangi and international law. Māori wards do not go far enough to respect those rights, but they are a good first step. I am personally tangata tiriti/Pākehā and won't be affected by this change. However, it is the kind of change that makes Kāpiti somewhere I would want to live for the rest of my life (I am currently in my early 30s).

 I'm not convinced this is required. The council already works with local iwi and must consult on policy & decisions for far better advice (than from ward politician).

- Councils have statutory responsibilities to engage with Māori and to recognise the Treaty of Waitangi which affects every law and statute in NZ. The Māori national electorates were introduced in 1867 under the Maori Representation Act and were created in order to give Māori a more direct say in parliament. As we are talking ethnicity, Maori are over-represented in parliament and already have significant local dedicated representation with KCDC and a high stakeholder presence. Why is a further dimension necessary? The use of the national Maori electoral roll in local body administration - on top of partnership and other arrangements with local iwi - for tribal politics in local communities is an abuse of power. It is bad enough having the other political parties' ideology at local level. Local government is supposed to provide local infrastructure for local people and needs less administration, not more.

 Aotearoa is a partnership of Māori and Paheka. Our decision making - and especially for our futures (people, places, environment etc) - should be done together. We (pakeha) have alot to learn and benefit from te ao Māori that would be of value to our future generations. Having an active voice "at the table" would bring the partnership to life for our Kāpiti community.

- Maori have their say now at KCDC why should rate payers pay more unnecessary monies to people based on racial grounds. If it is so important to Maori they should stand like every other ethnic group can.Preferential treatment by any race in this country is non democratic and totally unfair to all other ethnic groups.Maori wards are divisive and not required. If council requires information , do what they normally do and go and ask the people involved.

- Division by race is not the way of the future for any of us in NZ. Whilst the Maori culture is a special taonga politics and public policy are outside of culture and the two must not be confused. Policy must act for the service of the whole community and creating division in the form a 'Maori Ward' will not serve this purpose. Democracy serves us well, if individuals want a seat at the table then they must earn this right in a democratic manner not be given a false sense of importance by right of their race.

- A Maori Ward would be divisive and separatist. We need to act and live in ways which are inclusive and uniting, not in ways which accentuate our differences. A Maori Ward can give the impression that Maori's are special and superior and deserve better treatment.

 Maori are tangata whenua and have had much Kapiti land taken illegally from them (e.g the airport land), and have a special role as kaitiaki of Kapiti. Specific involvement through a Maori ward and representation on council will improve the working of council, be just under Te tiriti o Waitangi and improve our community as actively embracing and supporting our bicultural community

 Actually as an immigrant from UK I do not believe I should be consulted on this. I believe it should be for tangata whenua to decide how they wish to be best represented within the terms of Te Tiriti and not have my opinions in any way imposed.

Based on my understanding, the tangata whenua of the Kapiti area didn't think it was necessary. I think there is already a good relationship with the local Maori. Any additional infrastructure within the Kapiti would add extra costs for rate payers, during a cost of living crisis.

Majority vote systems diminish the voices of minority groups. Yet the Tiriti o Waitangi established a partnership between Maori in order to give mana to both Maori and non-Maori voices in Aotearoa New Zealand. As the KCDC currently stands, the voices of Maori are not give mana, they are swamped by the majority. Establishing a Maori ward will go some way towards addressing that issue, and honouring the intent of the Tiriti. That said, it will take the strength and resolve of the council as a whole to redress the many wrong doings of previous councils towards Maori, such as the wrongful taking of land in the Kapiti district through, for example rating for services that were not provided to Maori communities (see eg [REDACTED] who has analysed and published historical council data).

 This creates a race-based representation which is discriminatory in it's very nature. We have seen the recent unfolding of such race-based descrimination through our medical system. You cannot apply race-based positions as this is descriminating against all other races.

- There should be only one governance body democratically elected equally by all, taking into account and representing the views of all. This can be supported by Wards based upon location, as the multi-racial groups within each location may be subjected to the same set of issues. It cannot be supported by broad, region-wide Wards based upon race unless providing all ethnic groups across the Kapiti district equal opportunity to establish their own wards. Such a situation (where any and all ethnic groups are uniquely represented by wards) would quickly become administratively and financially untenable, and already long decision timeframes to become further drawn out. Is Kapiti prepared to give all races equal Ward representation? Persons of Asian-ethnic origin represent NZ's third largest ethnic group, marginally smaller than those identifying as Maori. This Asian ethnic group is projected to soon exceed the proportion of the NZ population identifying as a Maori. Will Kapiti also constitute a separate Ward for them now or in the future? How about a Ward for the long-standing, high-contributing, and largely unrecognized proportion of NZ's population who are ethnically Pacific Islanders? NZ has been, is, and will be a MULTI-cultural but very small island society whose best interests are served by having a democratically elected government / bureaucratic structure which is as simple and small as possible. That way all within NZ can move ahead.

- It emphasises two classes of citizens in New Zealand and divides the population. If the past mayor was correct, then the Maori ward would represent far fewer people than the other wards - are we democratic or no?. Maori can stand for any of the Councillor positions - there are no ethnic restrictions. They already have self selected representation at Council and with voting rights on Council committees (approved by the past Council)

- For: It will allow those who identify as Māori by registering on the Māori Roll to be represented fairly. It will encourage more Māori to participate in voting and Council affairs. The process recommended continues the key principle of one person, one vote and open nomination for the available seat. It does not allow the undemocratic practice of appointing a Māori representative or limiting representation of a designated Māori rep to those nominated by an outside group such as the local Iwi bodies.

- We are all New Zealanders and as such should be treated the same, everyone has the same opportunities. There are no reasons for people to be put into separate boxes.because of ethnicity, in doing so I think racial tensions will increase. Democracy is the most important issue. I don't even know why there are 2 electoral rolls. If a specific group of people want a voice on councils or in government they should put up a candidate who has the knowledge drive ambition and the right policies to seek election not rely on a position to be handed to them on a plate.

 It is a racist idea. With no end Nazis , Maori came to NZ on boats they are not natives or indigenous. Racist NZ laws already exclude pacific islanders and moriori even though their DNA is near identical. Ratepayers should not need to indulge a group of racists to get council services water sewer roading and streetlights. Already money spent on racist Maori health is putting new Zealand taxpayers in queues for knee hip and back operations.

- I firmly believe that only people who have been voted on to the council, by the people, should be in control of all assets. We are a democratic country. Giving people powers over assets and resources purely on race makes a mockery of the democratic process. I am opposed to what I believe to be a racist and decisive proposal.

Q2. **What are your reasons for or against establishing a Māori ward in Kāpiti?He aha ō take mō te whakatū, kore whakatū rānei o tētahi rohe Māori i Kāpiti?**

Remember we were a state of new south wales , when the treaty of Waitangi was signed , the treaty was signed by the leaders of Māori tribes because they wanted British rule , why? Because they were sick of fighting with each other over land etc We as always have been one people since Queen Victoria made us a country in the early 1800 s and she said , you are all one people , we have practised this all I lives and believe it's the only way for harmony in this country . A few part Māori activists are trying to create apartheid within our country for many reasons but mostly for financial gain . If this council wish to be known as racist , then go ahead and split our people by race . Remember this country has become multi cultural from many countries around the world now , so one race MUST NOT be put above another . One people for all our country for all New Zealanders , there is no other sensible choice .

 Establishing a Maori ward is not democratic. Maori is a very small % of our population. A Maori ward is a racial split of the population and should not be allowed anywhere in New Zealand

- I do not favour the establishment of a Maori ward. I believe election to council should be an open contest. Election to council should be based on securing support through votes, not ethnicity. If Maori seek more representation and influence on council they should mobilize their vote during local government elections as currently structured - given the low turnout there is ample scope for the successful return of more Maori candidates. Furthermore, establishing a Maori ward is unnecessary in an environment where te ao Maori is already a positive criterion in all council decisions and is increasingly incorporated in council policies and processes. [REDACTED], where I saw this process evolve, and which has accelerated over the past two years. I have no doubt that it's the same in Kapiti Coast District Council. Finally, I do not believe the establishment of a Maori ward is a treaty right and I am concerned by proposals that establish rights based on ethnicity, which I believe will fundamentally undermine social cohesion. .

- If the reason for establishing a Māori ward is the idea of "community of interest" then the logical extension is to establish wards for other assumed communities of interest (e.g. those based on religion, age, gender, business ownership, IQ, whatever). For example 23% of Kāpiti's population was born overseas (as against 14% of Kāpiti's population being of Māori descent) so it could be argued that there's a case for a couple of "overseas" wards to cater for that assumed community of interest. There's an even better case for having several "non-believers" wards since 53% of Kāpiti's population has no religion (according to census data). I doubt if either of the latter suggestions will ever get off the ground for the same reason that I hope the idea of a separate Māori ward will never fly - there's really no place in a liberal democracy for different electoral rules for different self-identifying groups. Lebanon is a good example of where you head when you let sectarian principles rule. What is also an issue with the proposal to establish a Māori ward is that it would appear to be in addition to the already undemocratic system in Kāpiti where (through Te Whakaminenga o Kāpiti) people not elected by the people of Kāpiti have a vote in various committees and sub-committees. If a Māori ward were to be established then there would be absolutely no reason to retain Te Whakaminenga o Kāpiti.

- The effects of establishing a Maori ward on representation across the district are not clear in the council info. I feel the adoption of a Maori ward would be divisive as it appears to give one group increased influence on council decision making. Maori already have specific representation at Committee & Sub- Committee level - something which is not afforded to other ethnic groups, so I feel that establishing a Maori ward is effectively giving Maori an unfair advantage in decision making. Maori engagement in politics at any level is apparently lower than the general population, but giving them "special" treatment in the voting process is not the way to rectify this.

 No other ethnic group in New Zealand has special representation, and having a separate Maori ward in the Kapiti District would breach the country's obligations under the UN Declaration.

- Council already consults Iwi on a "partnership" basis. While a view from Maori is reasonable it needs to be one or the other or neither. Wards are already diverse and anyone eligible can choose to stand as they wish, regardless of ethnicity including Maori. Who is elected is up to the same diverse voters. A Maori ward represents one community view only. If that is granted then the Council needs to consider other community views and there are many, not only ethnic but gender, orientation, age and so on. All are equally important or perhaps more important given the existing Iwi consultation. Councils were primarily set up to provide shared economic town infrastructure. Roading, Water and alike. That is generally indifferent to ethnicity and culture. Aspects of common cultural consideration and decency is expected but that applies to all citizens. The ratepayers should always be the primary consideration and the job of the council is to provide the optimum balance of that service delivery. Cultural balance needs to be kept within that and a specific Maori ward removes that balance.

I strongly object to the establishment of a "Maori Ward" within the Kapiti Coast District Council. The original Treaty of Waitangi made NO provision for "co-governance". Such a concept is based on faulty/misleading interpretations developed, particularly in the late 20th century. The concept of "rangatiratanga" exists in the original treaty to grant tribal chiefs the authority over property deemed to be jointly owned by the tribe. This was particularly necessary as there were no land titles in New Zealand at the time. Therefore, the interpretation that "rangatiratanga" was granted jointly to all of the Chiefs that were signatories to the treaty and that such authority extended over all of New Zealand jointly, is totally false. It follows that, the establishment of "Maori Wards" is false. Yours sincerely, [REDACTED] New Zealand citizen, rate payer and taxpayer.

Maori have the same opportunity to be represented in central and local government as any other group, by virtue of fair and democratic elections. Maori wards will provide disproportionate representation to Maori and cause further division and separatism.

Wards have been established to represent areas not culture. People of any ethnicity can choose to stand if they wish. The candidates are selected on the attributes and merit determined by the diverse voters. That should be on an equal basis. A Maori ward would elevate Maori culture above other cultures that aren't specifically represented on the same equal basis. Council already consults Iwi so there is already more than adequate representation.

- I do not think that any electoral system based on ethnicity is a good idea. I has been tried a number of times throughout history and has always failed spectacularly, the most recent examples are Germany and their Arian connection, South Africa and apartheid. Therefore the fairest system is democracy, where after a time if you disagree with the political landscape there is the opportunity of voting fairly everyone has the same opportunity.

- In staying true to the principles of Te Tiriti o Waitangi it is important for the council to formally recognise this with the establishment of a māori ward. In order to be seen doing what is right those in charge must be taking action. A māori ward also provides a different perspectives that may not be represented on the council and allows for true representation from those who whakapapa to the land to bear on significant issues facing the district.

 All current councillors are elected to represent all of Kapiti residents. Maori councillors will be elected to represent a racial section of society and make decisions and vote accordingly. Surely this is divisive, should not elected representatives be expected to make decisions for the good of ALL of Kapiti

- Three reasons why against: 1. Te Whakaminenga o Kāpiti provides Māori representation on Council. Mana whenua nominees to KCDC committees and sub-committees have voting rights. 2. Democratic representation is ensured through the general wards's councillors and districtwide councillors. A review was completed two years ago to ensure representation was provided through the general wards. 3. Timing. The Council undertook a representation review just two years ago. I deplore/am against another representation review as early as next year which would suck up the community's valuable resources - time and rates.

 I am Pākehā with a good number of Māori in my wider whānau. But I would never claim to be able to represent them on issues of concern to Māori. Similarly I believe that a body such as the Council needs to ensure that it always includes someone who can discuss issues from a Māori viewpoint.

- A Maori ward would imply that Maori are less than (or more than?) equal citizens in this District. It is a betrayal of the concept of equal responsibility per citizen, no matter what your ancestry or your background. I am strongly against the division of this country (or the district) by race or ancestry. A 'Maori Ward' smacks overwhelmingly of patronisation or condescension. It could also be presumed to be a betrayal of the 3rd article of the Treaty of Waitangi.

I have found Māori culture lacking in vision and far too focused on the past - either with perceived grievances or inter-tribal conflict. I have minimal confidence that they would bring any value to the table but rather add another non-value strata in key decision making. KCDC has enough trouble funding key initiatives and providing competent staff in a number of areas - this is simply going to exacerbate the issue. These comments do not come from a passive observer - [REDACTED] - the tribes simply could not agree and the opportunity just stagnated - that the type of behavior is what I fear would occur in Kapiti should a Māori Ward be set up

- NZ's democratic system is based on all citizens having an equal stake in society and in the democratic process. This underpins the principle of one person one vote - where everyone's votes has the same and equal weight in decision-making. Democracy in NZ is not a situation where my vote might have more influence or sway than another person's vote - where my vote has the same impact as two other votes (this could occur if, for example, the number of votes to elect a Councillor might be much less for one Councillor than for another). I could not find any material of the KCDC website on this proposal (no consultation document?) that outlined the rationale for the proposal, or its effect, or how it would sustain the one person one vote principle over time. I am concerned that the establishment of a Maori ward, with a Maori roll, would result in a situation where the weight of a vote of a person on the Maori roll being greater than the weight of the vote of a non-Maori voter. As there is no information on this matter, or on how this concern would be addressed, I could not support the proposal.

- We, the Paekākāriki Community Board, support the establishment of a Māori ward because it helps guarantee that Māori interests will have a seat at the decision-making table with voting rights on all issues addressed by council and allows for better representation of Māori within Kāpiti. We believe everyone benefits when we increase our ability to work in partnership with Māori. Having a Māori Ward allows for the person holding the seat express and advocate for Māori issues in a unrestrained way. Doing this in a general seat has additional challenges when majority of constituents are non-Māori. We support this being created in addition to the current arrangement with the three local iwi. Mana whenua interests are different from Māori representation, and both are important. As a Community Board we believe this would be extremely beneficial to us, and other local boards, as point of contact if wanting support and advice on issues where there is Māori interest.

 I think it is important for Māori to have voting rights at Council meetings and currently they do not. Ideally there wouldn't be a need for a separate Māori ward but they have been under-represented, and the 'system' has not been equal.

Kapiti does not need to have a Māori ward. Both Pakeha & Māori interests can be catered for under the present arrangement. If Māori desire to have more representation on the Council surely, they can make themselves available to be elected like everyone else. Separate identities, i.e Māori Wards are not helpful and are set to divide the community.

- Against Maori wards in Kapiti: - Wards are racist, based on claims to ethnicity that emphasise Maori ancestry and ignore non-Maori ancestry within the same person. The majority of people don't have the luxury of picking and choosing which of their ancestors to identity with for political purposes. - Maori ancestry, like all others, dilute as each generation passes - it is highly unlikely that demand for Maori wards will decrease accordingly. There's no clear end-point of satisfaction for some Maori factions. Once Maori wards are established the chances are more will be wanted, and they will be extremely difficult to dis-establish even if current goals are satisfied. - Wards are undemocratic, no ethnicity should get special voting advantages. - Maori already have disproportionate representation thanks to council appointed voting representatives on committees, and non-voting participation at the full council. - Wards will be undemocratic if it takes fewer votes to elect a Maori councillor versus non-Maori councillors. - Maori already have every opportunity for representation, in a system that welcomes participation. It's a proportional system already, if Maori want proportionate representation that's available. Special wards will embed disproportionate representation. - Parliament's Maori seats are not a valid supporting example because the historical reasons for them no longer hold, in particular they are redundant under MMP as evidenced by the significant over-representation (by population) of Maori MPs. Maori are perfectly capable of achieving representation at both government and council level. In fact, Maori representation on councils nationwide is already proportionate, at about 15 percent. - Maori wards are not an issue the council can decide on, constitutional matters need to be settled by referendum. - Maori wards threaten families by splitting them on ethnic lines, indeed they make an nonsense of the idea of family unity: how is fair that some nephews, nieces and cousins be given more than others in the same family?

- Why should we establish Māori ward, they can be elected to the Council as others. They are not special. your previous Mayor was biased, the current one is following in the same footsteps and needs to be aware to carry on as she is doing she will be a one time Mayor. The Council need to be aware of the feeling in the Kapiti community, it is not good or healthy. The Council need to stop accepting Māori are special. further more be cautious naming street son the old highway south & north as has been suggested e.g old/main rd south, old/main rd north. Perfect, works in Auckland. we don't need long Māori names as has been suggested.

 It smacks of separatism hoisting one group over all the others. Hardly democratic, creates an unnecessary bureaucracy which will impede decision making.

Kapiti District Council is already allowing too much influence from Maori. Racism, Separatism and Co Governance is not for me. There must be one vote for each person (regardless of race) Nationally and one vote for ratepayers based on local body boundaries. No need for separate Maori Ward!!

I am totally opposed to race based Māori wards system. NZ is a sovereign nation under the British Crown all people equal value, Not Special favors to one or other group. Māori are not a disadvantaged people but part of the 160 different cultures making up NZ. Māori are 14% of the population yet overrepresented at every level of society.

1. Last time this came up the local Maori tribes were against the idea, so not sure why they are not commenting this time around. If they don't want it why is Council proceeding on this path as the KCDC already has tribal representation on Council committees with voting rights. 2. In my considered opinion that it is not needed. Everyone currently has the same right to stand for and vote for a Ward representative and everyone is covered under the current Ward system. The KCDC bureaucracy is slow enough without introducing more layers. Look at how long it is taking to re-name the Old SH1 as an example. 3. We need to unite New Zealand, not have separatism. Racial Separatism is already polarizing New Zealand and is not the path we want to go. 4. Look what happened at the likes of Shelly Bay in Wellington and Ihumatao in Auckland when the various tribal members disagreed with tribal. representatives. Having a ward representative sets up this type of situation. 5. Which Marae would the ward candidate be representing, and would they be able to reach a consensus from the other Maraes without dragging out the time frame taken to make decisions. 6. If a Ward Representative is appointed, would the current 'Representations on Committees' system be discarded or would this have to continue, thereby giving the Maori tribes an extra voice on our Council over everyone else?

- I oppose the proposal to establish a separate Maori Ward in Kapiti: • I feel it is divisive, separating one section of the community • It dilutes the voting power of the existing wards • The Council already gives special status to Maori views under its Treaty undertakings • It is a step towards a 'co-governance' approach which runs against standard principles of responsibility • It is arguably undemocratic in allowing one part of the population special voting status. • It will lead to voting envy amongst the rest of the ratepayers. My wife and I are long-established Kapiti ratepayers.

My View My view coincides with the current relevant legislation in that: The purpose of local government is to enable democratic local decision making and action by, and on behalf of, communities; and to promote the social, economic, environmental, and cultural well-being of communities in the present and for the future. KCDC's role is therefore give effect to this purpose, in its' bailiwick and perform the duties, and exercise the rights, required by legislation. Maori Wards KCDC must establish and maintain processes to provide opportunities for Maori to contribute to its' decision-making processes and consider ways in which it might foster the further development of Maori capacity to contribute to its' decision-making processes. KCDC must provide relevant information to Maori to assist with these processes and opportunities. Notwithstanding the foregoing KCDC must make decisions that accord with its' purpose and any other grounds that seem reasonable and relevant to decisions pending or otherwise. Comment Standard & Poors (SP) Rating Report dated 20 July 2023 on KCDC stated "[KCDC has] an excellent institutional framework". SP gave KCDC a rating of one, the highest possible rating for an institutional framework. This recent SP rating underpins my view that KCDC already has in place robust systems and processes that enable every member of the community, regardless of their ethnicity to obtain information on, and provide input into, local decision-making. Recommendation I recommend that KCDC do not establish Maori Wards.

- I oppose the proposal to establish a separate Maori Ward in Kapiti: • I feel it is divisive, separating one section of the community as more important than others • It dilutes the voting power of the existing wards • The Council already gives special status to Maori views under its Treaty undertakings as is appropriate • It is a step towards a 'co-governance' approach which runs against standard principles of responsibility to all constituents • It is undemocratic in allowing one part of the population special higher voting status • It will lead to resentment from ratepayers about special treatment

Opposition to proposal for Maori wards in Kapiti I want to live in a community where I am the equal of my neighbours. Where we all belong because it is our land, and we are one people. Meeting together, debating together and voting together. There is too much racial division in New Zealand. We should aim to reduce the differences, to remove them completely. Not to add more. This is what you propose, with the introduction of Maori wards in Kapiti. Since Maori are believed to be a race (the official definition is "a Maori is a member of the Maori race"), this is racism, the very opposite to the first principle of the United Nations ("all human beings are born free and equal"). You wish to take Kapiti in the wrong direction. Such separate Maori wards have been refused by popular opinion whenever all the people can speak of what they want in their community. When binding referenda were held in 2018, in five municipalities, all opposed race-based Maori wards: those voting against were 80% of ratepayers in Kaikoura, 78% in Western Bay of Plenty, 77% in Manawatu, 69% in Palmerston North and 56.4% in Whakatane. This process has been driven by the opinion of the few who benefit by division: "At the May 2023 Te Whakaminenga o Kāpiti meeting, Council asked mana whenua to consider their position on establishing a Māori ward for the local body elections 2025." Should you push ahead, guided only by a racially defined segment of the population in a few tribes that came after 1820 (certainly not indigenous), to kill and drive out those who then lived here, you must at the very least allow a say to all others, by putting the proposition to a poll. The proposal is to also keep current special rights for that 4% minority (mana whenua), descendants of those who came to kill the then then inhabitants and seize their land. "Te Whakaminenga o Kāpiti is one of the most enduring partnerships between tangata whenua and local government in Aotearoa New Zealand. ... To reflect the importance we place on this partnership, and to ensure Māori representation on Council, we've appointed mana whenua nominees to our committees and sub-committees. They have voting rights on these committees and are non-voting participants at full Council meetings." I opposed such special rights in the previous representation review: my submission is given below. We wish to live here in Kapiti as equal members of the whole community. The elected councillors who have been given the votes of us all must represent us all, must stop this division and bring true equality so that we can, all together as equals, solve the real, practical challenges facing us here, in this, our homeland. Inequality of representation in Kapiti Kapiti is currently effectively co-governed through a partnership between the Council and some 4% of the population, members of three chosen iwi. This is (more or less, see below) within New Zealand law; information that I have received from Council makes this clear. "In 1994 the Kāpiti Coast District Council (the Council) entered into a Memorandum of Partnership with Te Āti Awa, Ngāti Raukawa ki te Tonga and Ngāti Toa Rangitira, the tangata whenua of the Kāpiti Coast District. The Memorandum of Partnership (the Partnership) recognises the importance of Te Tiriti o Waitangi (the Treaty of Waitangi) and its principles and is where the Council formally recognises Te Āti Awa, Ngāti Raukawa ki te Tonga and Ngāti Toa Rangitira as the tangata whenua of the Kāpiti Coast. The Memorandum of Partnership is also the foundation from which the Council gives effect to our legislative obligations to Māori under the Local Government Act 2002 (LGA), and Resource Management Act 1991 (RMA) including (but not limited to): • The requirements for the Council to provide for Māori participation in decision-making; • To ensure processes are in place for consulting with Māori; and • The exercise of guardianship by the tangata whenua of an area in accordance with tikanga Māori, in exercising its functions and powers under the RMA." Reference here, as in national legislation, is to tangata whenua. There are in fact no tangata whenua in Kapiti; the favoured tribes are correctly referred to elsewhere by Council as mana whenua, which is quite different as they were recent immigrants in 1840. Thus, if the law were correctly administered, those regulations would have no relevance to Kapiti. But this is New Zealand, where laws are carelessly written and thoughtlessly acted upon, where words are often undefined or taken to mean whatever an occasion demands. The decision to take that action, with a fundamental alteration in the governing structure of the District, was not put in a poll before the ratepayers. It has considerable weight, and the representatives of these three iwi play an important part in reaching decisions within Council. This division into two, unequal, peoples is made abundantly clear in the intentions and in the

presentation of the recent Long Term Plan. It was emphasised dramatically in the two-page spread in both the Kapiti News and the Kapiti Observer. Equal prominence is given to the message from the Mayor (right-hand page) and the message from the three recognised iwi, the Mana Whenua (left-hand page), who spoke authoritatively about their intentions. The Representation Review accepts this arrangement without question; it has been decided and the public are not asked their opinion. The key role of these iwi in reaching major decisions is clear. "While Council's representation arrangements haven't changed much over the past 20 years, our communities and their needs and expectations have changed significantly. This representation review comes at a time of significant change for both local government and our district. Local government is being asked to be agile, to remove barriers, to better reflect Te Tiriti o Waitangi, and to know and understand our communities better. We're seeing moves towards co-governance with mana whenua." "On 29 October 2020 Council resolved not to establish a Māori ward for electoral purposes. This decision was based on the recommendation of Council's three iwi partners, Te Āti Awa ki Whakarongotai Charitable Trust, Ngā Hapū o Ōtaki and Ngāti Toa Rangatira, who did not support the consideration of a Māori ward for Kāpiti at this time. ... On 1 March 2021 the Local Electoral (Māori Wards and Māori Constituencies) Amendment Act (Amendment Act) came into force introducing changes to the treatment of Māori wards and constituencies. Council consulted with each of its iwi partners on the implications of the Amendment Act which provided local authorities with a fresh opportunity to consider whether to establish a Māori ward. Council's iwi partners confirmed that while Māori ward representation on Council was important to them, their current priority was to strengthen their existing partnership with Council." The reason for that is obvious: at the present these iwi, less than 30% of Maori in the district, have considerable effective power, in addition to the same voting rights as all other citizens. With wards, they would share that influence with other Maori, and would have just the one means of influence and power, of the vote. Council has accepted their wish to conserve unequal effective representation – acceding to their demand. Throughout this process there is no questioning of the continuation of this 'partnership', between our elected representatives and the chosen iwi, and no opportunity for consideration of that decision by the general public. This review considers the choice of representation in the one partner of the dual government structure for the general public; the working of the other partner making decisions for our district is held to be none of our business. Who are these iwi, and why should they have this special privilege? The chosen iwi, the 'mana whenua', are not all the Maori in the district. It is the people of three iwi, Ngati Toa, Te Atiawa and Ngati Raukawa, who are less than 30% of the 14% who are Maori (Council figures) – less than 4.2% of the Kapiti population. Their position is not earned, it is inherited from ancestors two centuries ago (by race; as Maori they are, in legislation, members of the Maori race). The ancestors of Ngati Toa, Te Atiawa and Raukawa lived elsewhere, to the north, before 1820; they were not the long-term inhabitants of Kapiti. Any reference to these iwi as 'tangata whenua', as in the above quotes, is incorrect. First, in 1819-1820, there came a taua, a band of savage warriors, when Ngati Toa joined with Ngapuhi from the north to ravage the district. They saw that there was good land here with weakened tribes ripe for conquest. During the first decades of the nineteenth century, Ngati Toa and Te Atiawa had been under constant murderous attack from enemy tribes (such as Waikato and Ngati Maniapoto), and they decided to move away, to find a new home and to themselves attack, kill and drive off those then living here in Kapiti. In 1821-1822 a migration of Ngati Toa, with many of their allies, Te Atiawa, Ngati Mutunga and Ngati Tama, came to drive out those living in Kapiti in bloody battle and to take the land. The treachery of the large Muaupoko tribe at Horowhenua, when they greeted the newcomers in apparent friendship before attacking and killing many, resulted in the unrelenting hatred of Te Rauparaha, and subsequently Muaupoko were almost completely wiped out. There were struggles for the land. At Paekakariki, in 1823, Ngati Toa were attacked by Ngati Kahungunu and Ngati Ira from Wellington and suffered heavy losses. Ngati Toa had been weakened as many of their principal allies in Ngati Tama and Te Atiawa had left to return to their previous homes in Taranaki. They needed a safe refuge, which they found on Kapiti Island. In 1824 they were attacked there by a great, combined taua of their foes – a wide range of iwi had cause to seek utu from Ngati Toa. The fleet of the attacking taua had such a great number that the war canoes were almost continuous across the five kilometres from the mainland to the island. But Ngati Toa prevailed and the attack failed. Warfare was widespread across the country, and many Ngati Raukawa and Te Atiawa came in great treks to find sanctuary with Ngati Toa in Kapiti. In 1828, with the strengthened forces and a large stock of firearms, and using the many canoes captured from the 1824 attackers, a fleet of war canoes crossed Cook Strait to Queen Charlotte Sound with a taua of 340 picked warriors from Ngati Toa, Te Atiawa, Ngati Tama, and Ngati Raukawa. Further murderous raids to the south followed, as in 1831. In 1830, Te Atiawa, Ngati Tama and Ngati Mutunga had sent a taua to attack Ngati Kahungunu, after which a truce of sorts had been arranged. Later, in 1832, Ngati Kahungunu were invited to a feast at Waikanae, where they were treacherously attacked and killed by their Te Atiawa hosts. In the early 1830s, the land on Kapiti Island and along the coast was overpopulated, crowded by many tribes, and the resources were severely strained. With the increased population, relations among the several tribes in Kapiti started to fray, and, under the habits of tikanga, the resulting conflict resolution was by war. In 1834, a conflict broke

out between Te Atiawa and Ngati Raukawa. When fighting spread, Ngati Raukawa made a call for help to Te Heuheu of Ngāti Tuwharetoa and Te Wherowhero of Waikato, and a combined force came to the aid of the besieged Ngati Raukawa. After further fighting, negotiations led to a formal agreement and there was an uneasy peace; but the coalition was shattered. More conflict in Kapiti followed in 1839. When there was dispute, some Ngati Raukawa were keen to even up old scores dating back to the 1834 combat and there was bitter fighting in Waikanae. Estimates of the casualties differ: between seventy and two hundred Ngati Raukawa and between twenty and thirty-six Te Atiawa and Taranaki died in that fight. The coming of these people to Kapiti brought two decades of violence. Peace came only in 1840 with the acceptance of the national, colonial government, leaving those last comers in possession of the lands that they had taken. This is not a history to be proud of; there is nothing here, no action taken by these iwi, that we can celebrate or should reward. There is only a memory of bloodshed, misery and disruption. Meaningful representation is when we all have equal rights, and each of us has one vote, all of equal value. The Council thus chosen should itself make decisions; that is their duty and the task that they have put themselves forward to carry out, based on the needs and wishes of all citizens without discrimination and favour to any one group. Special rights, as exist in Kapiti today, undermine democracy and deny equal representation. Council should put an end to this unwanted discrimination, and revoke all decisions setting up division and partnership. Members of the three iwi referred to as ‘mana whenua’ (and, wrongly, in some cases, as ‘tangata whenua’) should take their place in a unified community as citizens, equal with us all.

Ngāti Toa's position on the establishment of Māori Wards is (a) we support their establishment as consistent with Te Tiriti o Waitangi and a step in the right direction of partnered governance in our land, but (b) are clear that any such Ward does not constitute a Tiriti partnership between Mana Whenua and Kāwanatanga. We therefore encourage KCDC to consider a Māori Ward as proposed, while retaining (and building) its substantive partnership with Ngāti Toa. Our ART confederation whanaunga will no doubt express their views on the matter in due course.

We have been asked by KCDC to have our say on whether to establish a Maori Ward ahead of the 2025 elections. My understanding is that feedback from the community closes on Friday 13 October. In the news section of the KCDC website, dated 11 September 2023, Mayor Holborow said: " Te Whakaminenga O Kapiti is a warm and productive partnership with our three local iwi. It's been in place since 1994 and which we understand makes it one of the longest-standing partnerships in the country between local government and mana whenua." Mayor Holborow also said, in this same letter, that " establishing a Maori ward would not affect our partnership or how it operates but adds a further dimension." Knowing very little about how this further dimension would add to our current representation arrangements, which seems to have worked fine so far, I do not support the establishment of a Maori ward.

I am strongly opposed to having a separate major ward in Kapiti. There needs to be a referendum of rate payers before anything like this proceeds. All political authority should come by Democratic means. All citizens of Kapiti should have the same rights and duties. Nobody should get an extra say because of who their great grandparents were. Public services should be delivered based on need, not race. New Zealand is a multi ethnic democracy where discrimination asked on ethnicity is illegal.

 Because it's undemocratic Co-governance, of which Maori wards are a part, is inherently undemocratic and is a bizarre reinterpretation of The Treaty that the Labour Party had no right (no mandate from the people) to implement

Dear KCDC Councillors, the Electoral Officer, KCDC CEO, RE: Objection to creation of Ethnicity based preferential voting rights for a new Ward Background: With reference to this Legislation this Bill has already been passed and is in effect - Local Electoral (Maori Wards and Maori Constituencies) Amendment Act 2021 <https://legislation.govt.nz/act/public/2021/0003/22.0/whole.html> This means that the Territorial Authority may implement a Maori Ward without a referendum and without Democratic vote - but restricting election to a minority subset of Councillor's decision. The public "consultation" carries no legal right or voting standing in Law. In Section 2 the word "may" is deemed as full capability for the TA to do what ever its Councillor's decide. The Committee Secretariat, Maori Affairs Committee ma@parliament.govt.nz only allowed one day for Public consultation for all New Zealand on the 11/02/2021 for the above bill and then promptly passed the bill under urgency quite un democratically.

I object and oppose this totalitarian and un-democratic amendment bill that totally undermines the principle of democracy and fairness to ALL ethnic groups by favouring only one ethnic group in New Zealand in a way that is discriminative to all other multi- ethnic groups in New Zealand that are non- Maori. All Ethnic groups have a right speak and vote democratically via their local body (TA) -electoral process. My Comments: Why did you only allow one day for the public submission process? It would appear you are using non standard practices to subvert/prevent the public voice to advance your private agenda? My Recommendations: [to the Maori Affairs Committee] Please allow local body authorities to continue to be run on a fully democratic process whereby they can fulfil binding referenda over their population base. Where: The Human bill of rights is not infringed All voters (whether Ward members, Counsellors, or members of the voting electorate) have equal rights in the voting and choice process. All ethnic groups are represented in the vote No one ethnic group is favoured over another. The government or no one party group has the power to over-ride the democratic electoral process for any aspect of local body or national body governance It is on these grounds that I recommend the following as regards to KCDC's intention to create an Apartheid voting Ward based on ethnicity: I fully support the existing rights of Te Maori to vote as they currently have with the existing representation on the KCDC council board, and on this basis the status quo should be maintained. We are all Tangata Te Whenua - what this means is that ALL ethnicities in New Zealand are the "people of the land". We are all immigrants including Te Maori - they actually were not the first race here and their ancestral homeland is Hawaii. If KCDC decides to discriminatively create Voting Wards based on ethnicity then there are larger ethnic groups comprising population demographics greater than Te Maori - namely Polynesian, Asian, Chinese and Indian. This group collectively exceeds the 16 % of Te Maori constituents by a very large factor. The creation of Voting Wards based on ethnicity is potentially divisive, separatist and is actually setting up an apartheid system. Please, I do not think you intend to implement something that has proven not to work in so many other countries around the world, and is quite destructive to the cohesiveness and unity of New Zealand Society as one country. I have had very recent communications with the current Attorney General - Hon David Parker concerning which signed version of the Treaty of Waitangi is being used to underpin the Co-governance legislation - including "Ten Waters rushed through against overwhelming Public opposition and majority TA non-acceptance. The version of the Treaty signed by the 540 Maori Chiefs written in Te Reo [Maori] did not authorise "co-governance" and it did not authorise Te Maori rights to own water or co-govern 50:50 with the Crown. The Attorney General admitted on 4th October 2023 that .."there is no authoritative copy of the Principles of the Treaty as such ... " [that I had asked for] Correspondence with Ministers Kieran McAnulty, Min Andrew Little, Min Kiri Allan, and Minister David Parker and the National Archivist date back to early April and can be provided in full to you if you so wish to see the evidence supporting my statements. .KCDC's past record with suppression and interference with Ward voting rights is concerning and while this experience last year is not relative to the Maori ward question it is clearly indicative of KCDC's authoritarian and un democratic attitude to Ward Voters. 2022 KCDC Electoral Background Just before midday on Friday th October 2022, I attempted to complete the KCDC local election voting paper numbered

The two staff concerned advised "that a Commissioner had made this decision and that this decision was not notified "to affected residents. I expressed my disgust with this illegal action and left the council rooms. A Section. 93 Petition for Inquiry Was initiated and signed by the Affected [REDACTED] residents on the following grounds but totally ignored by KCDC and [REDACTED] Ward Councillors without any corrective action to restore democratic voting rights. This petition was ignored by LGNZ and KCDC : 1. The Applicants seek an Inquiry into and ruling on the conduct and legitimacy of the Kapiti Coast District Council ("The Respondent") actions in excluding and denying the attached named Kapiti Coast residents from voting within our Community Ward that we reside. 2. Polling day of Local Body Election opening 16th September until midday 8th October 2022, closed 14th October 2022 at 7:40pm. 3. Community Ward [REDACTED] Grounds 4. This petition is based on the following grounds; it is the Democratic right for a resident to be enfranchised to vote within and for the community ward in which they reside, and are enrolled to vote on the electoral roll. Facts 5. The petition relies on the following facts to support the grounds: [REDACTED]

[REDACTED] omitted to include the ability to record a rightful vote for the [REDACTED] Community ward, see EXHIBIT "A" annexed to this application. b. Kapiti Coast District Council intentionally withheld notice of any proposed changes to disallow voting from the residents [REDACTED]

[REDACTED] h. In terms of Ward and Councillor Representation, there was no justifiable reason to dis-enfranchise, unduly influence, or limit the voting rights [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

[REDACTED] k. The boundary misrepresentation declared in the determination dated 4 April 2022 item [REDACTED] is not supported by the current meshblock boundary, and no notification was issued indicating the intention to dis-enfranchise the voters affected. Determination Sought 6. This petition seeks the following; to restore the dis-enfranchised voting rights of the residents of [REDACTED] to the Democratic right to vote in the [REDACTED] Community Ward lately redefined as [REDACTED], under the property based right granted under full text of the New Zealand Constitution Act 1852, and the New Zealand Bill of Rights Act 1990, both sections 12, and Freedom from Discrimination section 19. Conclusion On the basis of the [REDACTED] Ward experience and now the introduction of an Apartheid voting Ward it appears that KCDC have no respect for all ethnic groups and intentionally interfere with the Electoral process in this Territorial Authoritarian context.

I make this submission on behalf of myself as a descendant of [REDACTED] Treaty signatory [REDACTED], [REDACTED] [REDACTED] [REDACTED] [REDACTED] [REDACTED]

[REDACTED] I support a Māori ward including for the following reasons: ● One is six people in the district are of Māori descent according to the 2018 census ● The colonial system designed to disenfranchise Māori led to systemic inequality across the wide spectrum of Māori wellbeing indicators - requiring all-agency commitment to be part of restoring the mauri of our communities ● There is more than enough work required of all hands on deck to understand and address the extent of needs in our community ● Local authorities play a major role in ensuring (or not) local urban/natural/political environments are fit for fostering Māori well being - via multiple pathways such as town planning, healthy environments, housing and social needs and participation in society ● Common Māori frameworks council can improve with include Te Tiriti, Te Whare Tapa Wha (physical, social, mental, spiritual) and Te Pae Mahutonga Maori Health Promotion (leadership, autonomy, healthy environments, healthy lifestyle, cultural identity and participation in society) ● Council's reliance on Te Whakaminenga and mana whakahono agreements as relationship tools seem insufficient to replace the need for professional practice and in-depth understanding of the needs of whānau Māori living in the district ● Local government legislation requires council to consider needs of Māori as part of its public obligation. This might include the Government's obligations under article three of Te Tiriti to ensure equitable outcomes regardless of where people live but exist separately from RMA and Tiriti rights of tangata whenua. In other words - council has to do a good job both with tangata whenua and Māori who are part of the general public ● Whilst tangata whenua generally acknowledge a kaitiaki role for taura here or Māori living in our rohe from outside the district - there is little indication we wish to absolve council of its role to do so or have taken on the role in some way. There aren't enough hands on deck. ● A dedicated Māori ward role will enhance the work required and should not take anything away from iwi ● It is not clear from our networks that iwi representatives have benefitted from wider iwi decision-making on the need for a Maori ward or understanding the wider needs of Māori living in the rohe. Any rationale for not proceeding with a Māori ward seems un-informed by the people's voice or those who need their voice better represented. ● A non-Māori process seems to have been used to consult on this issue likely to obscure the true level of interest had the issue been raised in places and contexts where Māori frequent. For this reason I had recommended [REDACTED] to consult more widely on the terms of reference and approach. I've not seen it featured in iwi panui.

Subject: RE:Maori Wards

Dear Mayor and Councillors,

Maori Wards.

There has been request to sought public opinion on the subject of Maori Wards.

I would like to express my own.

I have been a New Zealander coming up 80 years. With this such experience, I can confidently provide a fair and substantiated opinion on this matter.

If you go back and look at the History of the Treaty signing in 1840, there seems to be a issue where the historical facts have since been altered somewhat.

There has been an extremist adjustment to the nature of the truth, and the current narrative is somewhat of a state of untruth facts.

When the treaty was signed, this gave the people of the land, our native brothers and sisters, the support and collaboration of the British Crown.

Since then, and a century or two later, New Zealanders live in a Democratic nation, and we all were one.

Maori, and Pakeha lived in a unified nation, and we did not differentiate between the two races. We were all Kiwis.

At some point, the establishment of a group who would advise and dictate further, known as the Waitangi Tribunal.

If you search this online, it is clear they are here to advise and make recommendations of claims from Maori, that relate to the crown's actions which breach promises made in the treaty. This industry has then since drained billions of dollars from the taxpayer for so called colonist oppression and discrimination against maori.

The treaty was intended to provide all people of New Zealand, Maori and Pakeha the same rights and protection under English Law.

The unison of our people of New Zealand has continued to be divided by the extremists who are part of the Tribunal, and then in turn filters down to other taxpayer funded organizations who are maorifying new zealand, and the latest being Co Governance assisted by Maori Wards.

I am now in a country, where if I speak my own thoughts, I am often referred to as being racist. I do not understand this, when we are all the same people, we have the same blood running through our veins, and we have the same opportunities as one another.

To our Local Mayor, and local councillors, the choice is clear to us all, that by continuing in engaging in this narrative, and allowing the divide between our people, by supporting the maori wards, i do feel that the racism will continue, not only for the Pakeha, but for the Maori as well. We are creating a divide of our people. This is not going to work. We must be all one nation, Kiwis, be it Maori, Pakeha, British, Irish, Chinese, or Indian.

This divide will create unrest, and less opportunity for all. This is not how I saw our country.

Paraparaumu
