2024-25

Urban/rural rating areas of the district

Some rates, such as the districtwide general rate, depend on what rating area the land is in. The maps of the rating areas are available at the Civic Administration Building and on the Council's website.

Kāpiti Coast District Council rate codes and categories	
Urban rating areas of the district	
U1	Paekākāriki urban rating area
	Paraparaumu/Raumati urban rating area
	Waikanae urban rating area
	Ōtaki urban rating area
Rural rating areas of the district	
R1, R2, R3	Paekākāriki rural rating area
	Paraparaumu/Raumati rural rating area
	Waikanae rural rating area
	Ōtaki rural rating area

Differentials

For the districtwide general rate, a differential system has been applied to the rural areas to reflect their lower population density and demand for services. The differentials are:

Kāpiti Coast District Council differentials		
Urban rating area		Percentage of urban rate in the dollar
U1	All rateable rating units	100%
Rural rating area		Percentage of urban rate in the dollar
R1	Rural rating units less than 50 hectares excluding any such rating units in categories R2 or R3	38%
R2	Rural rating units equal to or greater than 50 hectares and rating units less than 50 hectares which are part of one farming operation which in total is equal to or greater than 50 hectares.	22%
R3	Rural rating units which are identified in the rural village differential rating area maps	70%

At this stage the Council is not inviting ratepayers to make lump sum contributions in relation to any targeted rate.

Rating unit

The rating unit is determined according to rules made by the Valuer General. It is generally a property which has one record of title but can include two or more records of title or part records of title, dependent on whether the land is owned by the same person or persons and is used jointly as a single unit and is contiguous.

Rating definitions

Separately used or inhabited part of a rating unit

A separately used or inhabited part of a rating unit (SUIP) includes any portion inhabited or used by the owner or a person other than the owner, who has the right to use or inhabit that portion by virtue of a tenancy, lease, licence, or other agreement.

This definition includes separately used parts, whether or not actually occupied at any particular time, which are used by the owner for rental (or other form of occupation) on an occasional or long-term basis by someone other than the owner.

For the purpose of this definition, vacant premises offered or intended for use or habitation by a person other than the owner and usually used as such are defined as 'used'.

For the avoidance of doubt, a rating unit that has a single use or occupation or is vacant land is treated as having one separately used or inhabited part.

Examples of separately used or inhabited parts include rating units that have multiple offices, shops, commercial units, dwellings or flats, rating units with a dwelling with a consented family flat or minor flat, residential units which contain more than one self-contained area (including a kitchen as defined in Council's District Plan) which is capable of separate use, and residential units used as a home and place of business where the above requirements are met. While these examples are indicative of a separate use that the Council will record as a SUIP on the rating information database, they are capable of being rebutted by compelling evidence to the contrary.

In relation to motels, camping grounds, hotels, hostels, lodges, licensed hotels, and taverns, a separately used or inhabited part of a rating unit includes a part provided by a commercial business:

- for separate use as an entertainment area or for conference activities and/or any type of residential accommodation by virtue of an agreement requiring payment of a fee, or
- for accommodation (with or without fixed cooking and food preparation facilities), or
- for parking areas for caravans/mobile homes with an electric power source and access to washing/toilet facilities.

Accommodation/Hospitality:

Means rating units used principally or exclusively as motels, camping grounds, hotels, hostels, lodges, licensed hotels, and taverns.

Commercial:

Means rating units used principally or exclusively for commercial, industrial, business or utility network purposes.

This includes rating units used for:

- Commercial or industrial purposes
- Retail purposes
- Offices, administrative and/or associated functions including administrative or operational rating units of Central and Local Government
- Accommodation/hospitality
- Market gardens
- Utility networks
- Business-related premises used principally for private pecuniary benefit.

In situations where a change in use does not require a Council consent, but warrants a change in rating category, the onus is on the ratepayer to inform Council. Any change in use during a rating year will apply from 1 July of the following rating year.

Note: The Council does not assess a uniform annual general charge.

The funding mechanisms as specified in the 2024/25 financial year will continue for the other financial years covered by this plan, unless otherwise stated or are changed by way of review of the Revenue and Financing Policy and/or consultation on the change to a rating mechanism through long term or annual plan consultation.
