Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

FURTHER COMMENTS: I am the homeowner at 31 Mazengarb Road, Paraparaumu. Previously I have enquired through the Antenno app about the possibility of requesting a defensible crossing place at the intersection of Mazengarb Road and Percival Road due to safety concerns. I had complained about the amount of drivers travelling (at what appeared to be) at high speeds along what is a very straight (dragstrip) of a road towards where it turns into Te Kupe Road. There are many children and families coming from Kotuku Park and further north crossing to get across to Kena Kena and Te Ati Awa Park at this road location, and it is very busy and quite dangerous. Council Officers had advised that an option may be to create a defensible road crossing refuges / chicane of sorts at the intersection of Percival Road connecting into the recently completed shared pathway, which may act to slow drivers. Given rugby and netball season is almost upon us again and our road will get very busy again soon, consultation opening on the Speed Management Plan is timely. I REQUEST THAT KCDC SEEK TO: 1. Construct a Pedestrian Refuge on the northern corner of Percival Road and Mazengarb and extend the kerbs at the intersections to slow the entry/ exit speeds of vehicles. This would link into the recently completed Shared Pathway and provide a safer crossing point for Kena Kena school children, netball and rugby players / visitors (where overflow parking comes onto Mazengarb) and wider pedestrian movements at this location. 2. Install additional road calming infrastructure along this road corridor (chicane or narrowing) to reduce travel speeds along the road corridor and/or to provide more opportunities for pedestrians/ cyclists to cross the road corridors safely. Another location could be at the Te Āti Awa Park entrance, 14 Mazengarb Road, Paraparaumu Beach (location of Kenakena Pa and Church). https://www.kapiticoast.govt.nz/whats-on/things-to-do-in-kapiti/heritage-trail/paraparaumu/kenakena-pa-and-church/. Many people cross and enter the park here also. 3. Reduce speed limits on all Mazengarb Road to safe and appropriate speed limits (30-40kmph.) 4. Support Community Board funding along Mazengarb Road for street tree planting, improving amenity and assisting with traffic calming effects. I would like to request to speak to this submission. Q1. **Do you agree with our proposed Speed Management Plan?**

No. I am concerned that in all cases, there is an assumption that ALL speed limits under consideration are for reductions. For example, we now have a four lane highway from Ōtaki through to Wellington where the limit is only 100 kmh. Consideration needs to be given to increase this to 110 or 120 kmh, so that the sensible reductions in town will be balanced for the safer highways. I do understand that the remit of the highways is with Waka Kotahi but this definitely needs joined up thinking. I would also suggest some consideration is given to global comparisons of speed limits. I know that conditions in New Zealand, and in this case across the Kāpiti Coast in particular, may be different but it is useful to understand context in which we are operating and benchmarking.

Get rid of traffic lights at Te Moana Road and Ngaio Road and replace with small roundabouts (also useful at Park Avenue junction with Te Moana Road). Driving from Karori via Kelburn Viaduct, Upland Road, Glasgow Street and Kelburn Parade will give an excellent example of how well these work for heavy vehicle and pedestrian traffic.

Q57. **What feedback would you like to give us about the proposed speed limits at Raumati South School?**

You need to think about how kids get to school, and support low carbon trips of walking, scooting and cycling. The proposed is the bare minimum and designed to reduce any inconvenience of people in cars and as much as possible maintain the status quo. This plan places the driving convenience over the safety of children and young people and the necessary reduction in carbon emissions of this coastal community. You should be looking at least walkable catchments around schools and keeping kids safe on their journeys to/from school. The cost of speed limit changes is relatively low, the traffic calming measures need to happen but can be committed to for roll out later in the plan. Waka Kotahi guidance and the speed setting rule now allow for far greater changes than what are being proposed. Do more please.

Please do more, please put the safety of children and young people at the heart of this decision, not the efficiency of a private vehicle transport. This is not a modern plan, fit for the modern transport environment and climate change context. We need every kid to get to/from school safely, no matter how they travel. This community has asked for this for a long time.

Q1. **Do you agree with our proposed Speed Management Plan?**

This proposed speed management plan does not go far enough fast enough to address road safety issues and create a safer environment where more people feel safe and comfortable to walk and bike for shorter trips to reduce emissions from transport.

Do it once and do it right - this should be at least a 1.5 kilometre radius from the school to create safer options for our kids to walk, bike or scoot from home to school. Safety issues for kids travelling to school don't happen just outside the school gate. KCDC need to support our kids to be able to make these trips independently. The community have been asking for this since at least 2013.

Q58. **Do you agree with our proposed speed limit for Kāpiti College?** You need to do more

Q59. **What feedback would you like to give us about the proposed speed limits at Kāpiti College?**

Do it once and do it right - this should be at least a 2 kilometre distance from the school to create safer options for our kids to walk, bike or scoot from home to school. Safety issues for kids travelling to school don't happen just outside the school gate.

Q60. **Do you agree with our proposed speed limit for Raumati South Village?** You need to do more

Q61. **What feedback would you like to give us about the proposed speed limits at Raumati South Village?**

My earlier comments urge for safer speeds within a 1.5km radius of the schools, so that would include the streets in this area. If not, the safer speed zones should include at least 250m up side streets, as people tend to speed around these corners. The community have been asking for this since at least 2013. There needs to be a safer connection between the beach and the town centre - including safer crossing facilities for everyone who ends up walking down the Rosetta Road side of Poplar Ave (where there is no foot path?!). Rosetta Road is a hotspot for people who want to race/speed, both on motorbikes and in cars. There needs to be physical speed calming through this area, particularly near the Poplar Ave intersection - helping people cross safely to visit both the village centre and the beach. A raised pedestrian crossing would fit in well here and help our kids grow the independence to simply walk to the beach or dairy. KCDC need to create safer crossings across Rosetta Road at multiple points to enable kids to be able to safely walk, bike or scoot to school. The intersections of Rosetta Road with Tiromoana Road, Menin Road, and Poplar Ave are logical places to create raised pedestrian crossings and slow cars down.

Waka Kotahi are providing funding to councils to deliver safer speeds. This plan needs to be more ambitious and take into account not just road safety, but the positive impacts safer speeds have for encouraging more people to walk, bike, or scooter, and reduce our district's carbon emissions from transport.

Q1. **Do you agree with our proposed Speed Management Plan?**

I feel speed humps are better than speed signs. Not everyone takes note of speed signs. Please also include Early childhood centers in this proposal. I live opposite Grafton Kindergarten and quite often see parents with young children running across the road. Speed cameras after hours would also be effective.

Please something needs to be done in general in Pram. Last year we had a car plough through our home as they were speeding and lost control. We are not the only house that over the last couple of years have been effected. Late at night eg 11.30pm we can hear cars screaming up and down Arawhata Road. There are 50k speed signs and they are not being adhered to

Also consider reducing the limit on some semi-urban roads. I would also like to see a reduced speed limit on old SH1 between Hemi St and Hadfield Link Road. Presently it is 100kph and I would like it reduced to 80kph. Along this stretch of road there are several farm entrances, Greenhill Road, and some residences on the edge of Waikanae. There is also a cycle lane on the edge of the road.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. This is a solution looking for a problem to solve. There is no need for any speed reduction anywhere. Even speeds around schools are already covered adequately by the road code.

This proposal is utter nonsense. There is no case for any speed reduction and certainly not the draconian suggestions in the council's proposal. I and virtually everyone I have spoken to are outraged by this proposal. Council needs to listen to the majority of the rate payers who are clearly saying they don't want these proposed speed reductions!

As far as I can see there is no indication of a balance with the safety perspective and 'movement of all users efficiently around the transport' network. In other words there is no 'balanced scorecard' there is just a 'safety' one. That mindset is clearly shaped by the one dimensional guidance from NZTA.

Blanket lowering of speeds is a nonsense. It avoids dealing with road design faults.

Q1. **Do you agree with our proposed Speed Management Plan?**

No,I am sick of the speed limits getting lower and lower. Soon it will be quicker to get out and walk. It's so frustrating on roads like old SH1 between Raumati rd and ihakara st there's no reason to be 50kmh. There's nothing on one side of the road and a handful of houses on the other. Where's the logic in 50?

Decreasing the speed limit on mill road Otaki makes limited sense. In particular around Raukawa Marae. That entrance of the Marae is not as busy as its other entrance. Instead of limiting the speed around, there needs to be some further thought and discussion on the qty of times per year the Mill road entrance to that Marae is used. Additionally, what is proposed in the proposal is the stretch of road going from the roundabout at BP Ōtaki to Ōtaki beach which is 4.5km. At times in the day, there would be 8 different speed limit changes. Additionally, the 30km hour proposed speed limit outside Te Kura-Ā-Iwi Whakatupuranga Rua Mano would then lead into an 80km/h area. In this area where a further traffic calming device is suggested (marked H on map Q of the plan), there are already 2 of these on this short section of road outside this school. Generally, I feel this plan does not adequately cover some of the areas of Ōtaki where there are common crashes, e.g. the Rangiuru Road, Riverbank Road intersection, Tasmen Road or Convent Road.

Q1. **Do you agree with our proposed Speed Management Plan?**

No! Absolutely not. Why would mazengarb go to 40km???!!! You are making it so hard to travel around Paraparaumu and now lowering the speed so it takes even longer? This is so frustrating to read, you are making it so hard for residents to live here. We need more accessible streets to stop these traffic jams, please invest into this and stop lowering the speed, this is madness Stop this nonsense!!! We live two blocks away from a school and there is no need for our street to be 30km.

Stop and invest on more accessible streets to stop the constant traffic jams. Put in a road connecting the drive and mazengarb road. What a complete waste of money

Reduced limits on main corridor roads like Kapiti road and Mazengarb are a big no for me. For a small town getting around Paraparaumu is already more difficult than it should be. Slowing these roads down futher doesn't seem well thought out. They are wide roads with good visibility. 50kmh is not particularly fast to start with and having cars crawl down these streets at 40kmh seems unnecessary. I'm fine with quiet, narrow residential streets (particularly where parked cars limit visibility) having lower limits, but please leave our main roads alone. Thanks

It is dangerous enough driving in the Kapiti Coast with the increasing elderly population.... reducing speeds will only lead the elderly to drive at 15km everywhere... our roads can't cope with the congestion now.

Q66. **What feedback would you like to give us about the proposed speed limits at Paekākāriki School?**

not answered

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

There is no need to reduce surrounding roads speed limit to 40km,, this will cause a lot of unnecessary delay and people getting road rage. Not ideal

Q37. **Do you agree with our proposed speed limit for Paraparaumu College?** Yes, you've got it right

Q38. **What feedback would you like to give us about the proposed speed limits at Paraparaumu College?**

Consideration needs to be given to the effect of the new zebra crossing as right now traffic is already fairly locked up in the area (including traffic from Paraparaumu Beach and Kenakena schools) with just the current zebra crossing in use. Given traffic often backs up down Mazengarb Road beyond Guildford, this makes travel out of the area to Paraparaumu Town Centre hard already at the school peak times and so this would likely worsen with a second zebra crossing. A better approach might be to have a single zebra crossing more centered to the college which would also help prevent the blocking of the Mazengarb/Guildford Drive roundabout which is partly due to the closeness of the existing zebra crossing to the roundabout.

Q1. **Do you agree with our proposed Speed Management Plan?**

No

Q2. **Would you like to answer on a specific area?** Yes

Q3. **Select the Community Board Areas you would like to provide feedback on:** Waikanae (includes Peka Peka)

Q4. **Select the Waikanae areas you'd like to provide feedback on:** Kapakapanui School

Q5. **Do you agree with our proposed speed limit for Kapakapanui?** **Other (please specify)**
Half agree, please see next comment

Q6. **What feedback would you like to give us about the proposed speed limits at Kapakapanui?**

I totally agree with a 30km speed limit in the area. I have children at the school and see cars speeding during drop off and pick up times. However outside of these times the streets are very quiet. I believe this area only needs to be 30 during school drop off/pick up times

At Paraparaumu College the zebra crossing should be changed to a push button pedestrian crossing to control both traffic and pedestrians better. Often the road is backed up due to a continuous stream of children crossing causing frustration amongst drivers leading to dangerous driving. Also move the crossing away from the roundabout as it's in a dangerous area since drivers are too busy watching for other cars when going through the roundabout.

I do not see a need to make so many permanent changes to the speed limit, if this is for safety reasons then having variable speed changes during school drop off and pick up times makes more sense. I am concerned about the terminology of "traffic calming devices" and although you have given a couple of examples of what this might be it does not state all options that you might be considering.

Q1. **Do you agree with our proposed Speed Management Plan?**

No, why are we spending money on schemes like this. Put a zebra crossing outside Paraparaumu College first and spend money on that.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. For sure lower speed limits around schools absolutely but absolute not down kapiti road. You have already completely screwed the traffic flow around kapiti with the main road “improvements” & there’s now backed up traffic where there was no backed up traffic before dont lower speed limits & further hinder movement around the area.

30km in residential areas is not needed. Where is the data & evidence on accidents & deaths due to excess speed in these areas. Again you have completely screwed traffic flow around coastlands & through main road due to “improvements” that weren’t needed. The time it takes for me to get to and from daycare (across the tracks) has tripled because there is not enough room for the right turn across the tracks. It’s extremely frustrating to see money be spent on these kind of things that don’t improve anything when kapiti council isn’t putting money into things that matter

Q1. **Do you agree with our proposed Speed Management Plan?**

I think the speed limits in general are too low and will cause traffic jams and driver frustration. I agree that speed limits around schools are too high. In Victoria, Australia, speed limits drop to 40km/h in the morning and afternoon when students are arriving and leaving school. Roads like Kapiti Rd are already congested and has multiple traffic lights so the speed limit is already 30-40km/h by default. Quiet suburban roads can be safely driven through at 50 km/h.

I understand having reduced speeds of 30km/h around school zones during school hours only. But I don’t believe residential streets or roads like Kapiti road, Mazengarb road & Te Moana road etc., need to have speeds reduced below 50km/h as this will only cause traffic delays for no good reason.

Mazengarb Rd is a major road. You should be working to _increase_ the speed limit on that road to 6o or 70, not lowering it. Build an underground or overhead crossing and don't lower the speed limit.

The long term goal of extending the speed limit to 30/40 in a wide area is just outright insane, sadly it's exactly the sort of anti car behaviour we've come to expect from KCDC the last few years.

Q1. **Do you agree with our proposed Speed Management Plan?**

Absolutely not! The speed reductions will only continue to add to the existing problem of traffic congestion on the Kapiti Coast. 30km/h should be reserved for schools during pickup and dropoff times. Town Centres and neighbourhoods should remain 50km/h. Corridors should NOT be restricted to 7km/h.

I think 30-40km/hr is too slow around areas that are not in a school zone. People generally drive to the conditions and risks - such as children on bikes. It could potentially double the time taken to get anywhere. It will affect everyone from logistic companies to tradies and people going about their daily lives. I haven’t seen any research or reason for these reduced speed restrictions. No statistics given as to why or how many people have been in accidents or harmed at the current 50km/hr speed or what the reductions in speed will achieve.

Q1. **Do you agree with our proposed Speed Management Plan?**

I agree that the plan has some very good proposals but there are some urgent issues that need to be addressed whether it be as part of that plan or extra to it.

Q38. **What feedback would you like to give us about the proposed speed limits at Paraparaumu College?**

We live on The Drive, the length of which is a very popular access road for pupils at Paraparaumu College to make their way to and from school - especially those who live in Otaihanga and Waikanae. However, it is also a fun place for those who wish to test out there fast cars and motorcycles at any time of day or night including the danger times for those school cyclists and walkers. I was told that the median speed on our stretch of The Drive is 32kph, Well that may be the case but it is not median speed that is the problem, it is the outliers. During the weekdays I work from home and my study looks out at the street and I can assure you that the so-called "median" is actually a red herring. The number of vehicles travelling at any point along this street (especially from the corner of Kotuku Drive to the roundabout at Manly Street intersection) at a speed above 50kph is what should be of concern. We have pleaded previously for speed bumps or whatever you may call them to be put in the street but were told that was not an option due to the fact that members of an inline roller skating team used the street for practice. Frankly I don't believe that is the case and anyway - should those people be allowed to speed any more than any other vehicle in this region!! Please consider checking the statements I have made and also what can be done about this issue.

I have concerns over reducing the speed limits of other major town roads to 30km/h. Congestion is at its worst since the expressway was built. It takes too long to get round the town and reduced speed limits will only I crease the time it takes to get to places, increasing also stress and tension amongst drivers. Many parents ttavelling too and from after school activities find managing the traffic slow and infuriating. Many arriving late. Slowing the roads will not help people. We need an additional road other than Rimu road from Kapiti rd to Raumati Rd. We need less traffic lights and less road works!

Lowering speed limits will not change rates of accidents, its more likely to increase them as people get frustrated and exceed the limits.

Ok around schools during school hours only. Leave the rest of the coast roads alone. Also make sure the likes of Raumati Beach school have a patrol over the crossing which would stop congestion rather than letting anyone cross at anytime meaning the traffic has to remain stopped forever every start and end of the school day.

Q13. **Do you agree with our proposed speed limit for Te Horo Beach?** not answered

Q14. **What feedback would you like to give us about the proposed speed limits at Waikanae Beach Village?**

Lowering the speed limit on roads leading to Tutere St is not justified. Traffic on those streets, and Ngapaki St, is relatively light even during summer holidays. The streets are plenty wide enough and visibility is good enough for drivers to approach Tutere St at speeds up to 50 kph. A limit of 30 kph is much too slow, even a bicycle can do more. The proposal goes too far. It takes NZ further into a "nanny state" which is already serving the transgressors more than the sensible majority general public. The proposal is utterly ridiculous and clearly unpopular, judging by the feedback statistics. Lowering the speed limit will add substantially to frustration among drivers, especially those keen to get home in the approach roads. I support a change to the limit on Tutere St to 30 kph at times when beach activities, in particular, are popular, and there is always good patronage at the cafes. I already reduce speed along Tutere St because of the possible hazards there.

Don't automatically pursue speed limit policies that are driven by the government. The government has got it wrong, just as Greg Murphy has clealr pointed out. Our problem is the poor quality of driving. Money should be put into better training, re-training and re-testing. Offenders should be made to take defensive driving courses to regain licences. Training MUST be improved, and a greater minimum number of professional lessons MUST be completed for anyone to get a driving licence.

The ridiculous amount of traffic lights have crippled traffic at immeasurable cost. This reduction of speed will likely cripple all business in our community, and as you've obviously forgotten these businesses employ the people who pay your wages. We don't need these woke central government policies crippling our community

Traffic speed is not an issue that needs to be addressed by such radical changes. Just police what is already in place

Q1. **Do you agree with our proposed Speed Management Plan?**

No not at all, I fail to see how any of this helps with congestion and emissions let alone safty. I belive all this will do is cause frustration and increase the liklyhood of accidents and poor driving behaviour. It is no great secret that there seems to be an agenda targeting motorists and this sort of thing simply adds fuel to the fire.

Work on maintaining the roads first, that may actually make things safer for all of us, cyclists included. There is nothing wrong with the current speed and when it's busy you're going slow anyway because the traffic is so screwed at peak hour with all of the ridiculous traffic lights.

Reducing traffic around schooks is a good idea. Reducing traffic to 30km on side roads is a stupid idea you will create more problems, we don't have any issues with children or adults being in traffic accidents in kapiti so you have zero reason to reduce speeds, id suggest you drive down old statehighway 1 to realise the stupidity your creating on our roads you constantly make stupid mistakes by creating more traffic and frustration, longer times to get home to our families, wake up kapiti council reducing speeds will do nothing

With changing the speed limits you will not only make the congestion worse around Kapiti, but all services will have to increase their prices due to the length of time it will take to get to a job and the fact that they will get less jobs done per day due to the time it takes to get between jobs. Your own sub-contractors will have to charge KCDC more because of the time delays, so you will be costing rate payers more.

Q1. **Do you agree with our proposed Speed Management Plan?**

Absolutely not, 30km for roads not near schools is absolutely ridiculous. It will achieve nothing, only more frustrated drivers.

You are going to make people frustrated and late. Dropping the speed limit means more travel time and some of us are already busy. I work 3 jobs, I dont have more time to travel, especially with the amount of traffic lights on Kapiti Road. Maybe sort that out first because the time to get from one end to the other is horrendous

Q1. **Do you agree with our proposed Speed Management Plan?**

No - there have been several reductions and changes which is negatively impacting the flow of traffic around Kapiti, especially around Paraparaumu and Waikanae. Changes need to improve the flow and speed management is not the answer.

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

Change is usually required due to something happening on an ongoing basis. The only impact I have seen and experienced over the past 10 years in the Kapiti region is a very negative one. The addition of at least 10 new traffic lights, reducing the number of traffic lanes, reducing the speed limits and adding in several roundabouts has caused unnecessary bottle necks, increased travel time and higher anxiety for the drivers in the district.

Q1. **Do you agree with our proposed Speed Management Plan?**

NO, I think reducing the number of roads shown on your map in orange to 30 km is overkill and will make travel times and frustration levels too high.

Q2. **Would you like to answer on a specific area?** Yes

Q3. **Select the Community Board Areas you would like to provide feedback on:**

Q12. **Do you agree with our proposed speed limit for Waikanae Beach Village?** not answered

Q13. **Do you agree with our proposed speed limit for Te Horo Beach?**
Other (please specify)
40 km would be a better reduction, 30 is far too low

Q14. **What feedback would you like to give us about the proposed speed limits at Waikanae Beach Village?**

not answered

Q15.	**Do you agree with our proposed speed limit for Waikanae Town Centre?**	**Other (please specify)** 30 km too slow, 40 would be adequate

Q16. **What feedback would you like to give us about the proposed speed limits at Waikanae Town Centre?**

if you make the speed limit too slow people will ignore it. Make it more reasonable and it will be more likely to be adhered to. eg 40 km

Q17.	**Do you agree with our proposed speed limit for Peka Peka Road?**	**Other (please specify)** speed limit is too low

Q18. **What feedback would you like to give us about the proposed speed limits at Peka Peka Road?**

60 km along this length of road is too low - make it 70 - this is more likely to be adhered to.

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

reducing the speed limits immediately around schools is a good idea, but the extent of the streets you are including, and reducing them to 30 as well is overkill. People are more likely to adhere to a speed that seems reasonable, so reducing those surrounding streets to 40 would be better. The roads that link communities, r get people from one area to another, like Pekapeka, the old highway etc, need to be sensible speeds instead of really reduced ones, or they won't work. If the council was to implement all the reduced speeds on this proposed plan, getting around the district will take so much longer and cause so much more frustration for people who live here.

All areas around Raumati road, Rimu Road and Ihakara Street should be 40kph or below. Since the old SH1 has been changed this has become a race track and a lot of boy racers use this 24/7. I personally would like to see Rimu Road 30k all the way through and all schools at 30k per hour. Thanks

Q13. **Do you agree with our proposed speed limit for Te Horo Beach?** not answered

Q14. **What feedback would you like to give us about the proposed speed limits at Waikanae Beach Village?**

The proposal appears to be in response to a problem that doesn't exist. Although I reside on the fringes of the proposed slow zone, I am a frequent pedestrian, cyclist and motorist within it. The area has low traffic volumes, plenty of off-street parking and plenty of space for cyclists and pedestrians. There is no traffic or speed problem. Reducing the limit to 30kph will create frustration, perhaps anger. I can understand the application of reduced speeds around schools and other institutions where the foot traffic is high. I can also agree that the section of Tutere Street by Hey Coastie and Long Beach could be a reduced speed zone, although the three roundabouts effectively reduce speed anyway.

You state on your website that “Over the years we have continued to receive requests from the community for traffic-calming measures and lower speed limits for specific areas and individual streets.” Requests from the community do not constitute majority support for this proposal. Such requests probably relate to specific areas to be changed, such as schools and high traffic areas.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. Reduced speeds around schools may be appropriate, but only during school hours, and possibly in shopping areas such as Paraparaumu, Raumati and Waikanae . No other speed restrictions should be applied as it will create more problems than it will address.

Q2. **Would you like to answer on a specific area?** not answered

Q3. **Select the Community Board Areas you would like to provide feedback on:**
Waikanae (includes Peka Peka)
Paraparaumu

Keep major arterial roads, e.g. Kapiti and Mazengarb, at 50km/h. Increase width of Kapiti Rd. to four lane, (two in each direction), along it's entire length!

Q1. **Do you agree with our proposed Speed Management Plan?**

Broadly I agree, but in detail I have significant reservations. Te Moana Rd for example does not need a speed change. the schools do not need blanket X distance zones, but rather targetted zones.

Q2. **Would you like to answer on a specific area?** Yes

please do not use speed humps - they are not being maintained and cost more fuel consumption as we accelerate after each hump and tyre wear a we decelerate and accelerate - again expensive from a climate change perspective

Q1. **Do you agree with our proposed Speed Management Plan?**

The plan is very vague and does not mention what he implication is for the district. Cars have improved of the the years, I think you need to target the people not the cars and of course keep the roads safe no potholes. I think the extra money needs to go into the upgrade of the roads in the hard hit cyclone area's. Of course during schooltime the speed restriction needs to be adhire to. And it is logical to have a lower speed for Cul-Du-Sac streets but not for roads like Mazengarb road (which was 80km before), Kapiti road (= red light district), old SH1 etc. It looks more about control and getting to be able to fine more tickets. If KCDC would really want to be safe, get to the people and educate them to use their lights in the night and bad weather. Regularly check their engine, wipers etc. Get also the kids to learn how to bike/ride/walk in traffic. It is not only the cars it is everyone who is using the roads during peaktime and how to address eachother. Making the speed lower will just increase frustration. Possibly introduce for the carlovers one night at month the option to speed at the e.g the airstrip or any other area. Plus check more on the roads during night time. More teenagers will do that if there is nothing else to do for them!

Q36. **Select the Paraparaumu areas you'd like to provide feedback on:** Paraparaumu College

Q37. **Do you agree with our proposed speed limit for Paraparaumu College?** **Other (please specify)**
This is a college and kids should know the rules and not to cotton wool them. I think more education for kids how to use their bikes and rules. Lights on in bad weather (also for the cars). Maybe add another strip of crossing at the other end. Teach the kids to use the walk area not other areas as it is not safe. I am not sure if 30km will help as kids will walk all over the road due to more congestion. There still needs to be a flow for the cars and only during school drop off and pickup.

Q38. **What feedback would you like to give us about the proposed speed limits at Paraparaumu College?**

Learn the kids how to use the roads and make sure there is more space for the cars to drop off their kids during peak time. 30km should only be during school start and end time not the whole day/weekend.

Add a crossing to the overflow parking.

Q53. **What feedback would you like to give us about the proposed speed limits at Te Rā Waldorf School and Te Rāwhiti Kindergarten?**

Make sure the water does not stay on the carparks, make sure to have an easy waterflow into Queen Elizabeth park. Easy to do and it will help more than the road restrictions. Plus you would help the houses in the back with the extended water which will become more in the years to come. Keeping the area save for everyone. Due to the kindergarten I think 30km limit during school time is necessary. Maybe add a crossing to the overflow parking place.

It is not clear what you are implementing everywhere but I think to put speed everywhere and any day is over the top. Cars are safer but the people are not educated how to use the roads. Especially the young kids need to learn how to interact in traffic however small kids in kindy need a safe space as they are unable to comprehend the dangers yet. For colleges try to give more space for the incoming/outgoing cars as they get frustrated due to not enough car park which contributes to accidents (not looking for other traffic). Plus the teens need more guidance how to act in traffic.

If you we’re serious about making our roads safer, the council would of okayed a Peka Peka and Raumati on and of ramp, so residents could travel in kapiti on the freeway, lessening traffic locally. 30 km speed limit is ridiculous. At best only around schools and some shopping areas. At best.

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

I would like to see the speed on the old state highway between Paraparaumu & the Otaihanga round about dropped to 60km. This will make it a lot safer for cyclists & walkers using the road. I think it would also be a very safe option to place a round about at Amohia & Rimutaka street. Possibly with a Zebra crossing. This would slow speeds down and also enable a safe route for pedestrians and bikers crossing the road. A lot of children cross at this point going to and from the rugby club/School. If this is not an option it would be nice to see a pedestrian/bridge going from Awatea Lakes side of the tracks to Lindale Farm. Giving an alternative safe access way.

Q1. **Do you agree with our proposed Speed Management Plan?**

No, I find the whole exercise unnecessary. There doesn't appear to be any evidence that people simply driving the current speed limits are causing accidents. There are always other factors involved such as alcohol, phone distractions etc.

As someone who travels around the district for work everyday, this could easily add a lot of time and stress to my workday. It is going to cost a lot of money and we don’t have any concrete evidence that it will save lives or get kids cycling to school.

Q1. **Do you agree with our proposed Speed Management Plan?**

Yes, there are too many drivers who regularly speed and have very little regard for other road users within the Kapiti region. Lowering the speed limit particularly around school areas is important to prevent injuries and accidents.

Q2.	**Would you like to answer on a specific area?**	Yes
Q3.	**Select the Community Board Areas you would like to provide feedback on:**	Waikanae (includes Peka Peka)
Q4.	**Select the Waikanae areas you'd like to provide feedback on:**	Kapakapanui School Waikanae School Te Horo Beach Waikanae Beach Village Waikanae Town Centre Te Horo School Peka Peka
Q5.	**Do you agree with our proposed speed limit for Kapakapanui?**	Yes, you've got it right

Q6. **What feedback would you like to give us about the proposed speed limits at Kapakapanui?**

This is a residential area with a bend as you approach from both ways. With a large school role (around 600), too many road users, including parents often exceed the 50kmh speed limit and therefore needs to be lowered, with 30kmh a good base.

Q7.	**Do you agree with our proposed speed limit for Waikanae School?**	Yes, you've got it right

Q8. **What feedback would you like to give us about the proposed speed limits at Waikanae School?**

not answered

Q9.	**Do you agree with our proposed speed limit for Te Horo School?**	Yes, you've got it right

not answered

Q15. **Do you agree with our proposed speed limit for Waikanae Town Centre?** Yes, you've got it right

Q16. **What feedback would you like to give us about the proposed speed limits at Waikanae Town Centre?**

Again the wide road and amount of traffic means that 50kmh to too high for the number of road issues. Definitely agree to lowering the limit. many take people a longer time to travel but ultimately will be safer.

Q17. **Do you agree with our proposed speed limit for Peka Peka Road?** Yes, you've got it right

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

I think it's long overdue that the speed limit around schools and village areas should be lowered for the safety of other road users and pedestrians. This has occurred in other countries with much success and not sure why there is quite a resistance from other road users for the lowering to occur. Maybe this is due to people not leaving enough time for their journey time or quite happy to undertake their journey in the shortest possible time. Enough is enough and all too frequently we see people exceeding the recommended speed limit causing accidents plus injury or killing often the innocent party. This is particularly important in built up areas where local councils can have an influence in a change in the law to reflect a lower speed limit.

Reokorangi Road is unsafe at 80km/hr given that the are no footpaths and many cyclists and pedestrians/trampers using this road. It is only a matter of time before there is a serious accident.

Traffic in and around Kapiti Rd is already stuffed up by the ridiculous traffic light sequencing. I'd be more receptive to slower speed limits if traffic remained flowing. Instead, the traffic system is designed to impede the flow of traffic causing backups and rat racing down the immediately affected areas. Whoever designed the system must live on Te Roto Dr because that clearly has priority over Kapiti Rd at all hours of the day. Insanity

Q1. **Do you agree with our proposed Speed Management Plan?**

No - the current road speeds are safe and adequate. The council has recently spent alot of rate payer $$ on traffic lights and crossings there is no requirement for speed restrictions. Not to mention there are not enough police in the district to police the restrictions so they wouldn't be policed or adhered to. Waste of rate payer money.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. I agree with with reducing speed around schools, however I believe the issue in other areas is speeding, not the underlying speed limit. More resource should go towards addressing the speeding!

Q1. **Do you agree with our proposed Speed Management Plan?**

No not at all, there certainly is not no evidence to show there needs to be a change, schools are well catered for and there are enough traffic lights down Kapiti Road to confuse people, adding to that you have now got a back log of traffic in Coastlands car park at 5 pm god knows what will happen when you have the next set of lights operating for pedestrians from the station. The slower you go the more accidents there will be, frustration sets in and people will start taking risks. Ban people using cel phones would be a good start not lowering the speed limit.

The area of reduced speed limit in Paraparaumu Beach is ridiculous. Around schools yes, in the shopping areas yes, but surrounding streets? Also, the stats on the number of deaths caused by cars need to have more context. For example, what were the circumstances that caused the person to car collision? Because I have on many occasions in areas around Paraparaumu Beach, noticed runners and cyclists being inattentive and causing a near accident. Of course when you hit them a car would come better off, but you cannot inconvenience everyone for the stupidity of others. Runners wearing headphones or earphones and running across streets without looking is very common in Paraparaumu Beach. Cyclists being idiots and again turning or crossing roads without stopping and looking. How about a campaign for safety when using road for activities? People who are not safety aware will still cause person to car collisions that may or may not be fatal.

You need to add a change to the speed limit on Waterfall Road. It is currently posted at 60kph which is not only near impossible but actually quite unsafe! This unimproved dirt/gravel road is but 1.5 lanes wide and the posted speed limit should be reduced to 40kph.

Not speed management. But, I do have to say Kāpiti Road needs to be widened to 4 lanes from old SH-1 all the way to Mazengarb Road. And old SH-1 needs to be widened back to 4 lanes from Ihakura Street to Kāpiti Road. The current narrowing has caused serious traffic jams and confusion which will ultimately result in accidents, injuries and deaths. I will also impede access to emergency vehicles, which will endanger lives. And it significantly impedes access to and from Coastlands Mall and businesses there thus negatively impacting upon business and commerce thus revenue to the district. The current plans are foolish and dangerous and do not support the community.

Q37. **Do you agree with our proposed speed limit for Paraparaumu College?** You need to do less

Q38. **What feedback would you like to give us about the proposed speed limits at Paraparaumu College?**

50kph is fine around a college. During peak times you crawl anyway so no speed limit will matter or make any difference

Q39. **Do you agree with our proposed speed limit for Kāpiti School?** You need to do less

Q40. **What feedback would you like to give us about the proposed speed limits at Kāpiti School?**

50kph is fine around a that small road with speed bumps on it. During peak times you crawl anyway so no speed limit will matter or make any difference

Q41. **Do you agree with our proposed speed limit for Our Lady of Kāpiti School?** You need to do less

Q42. **What feedback would you like to give us about the proposed speed limits at Our Lady of Kāpiti School?**

50kph is fine around a school. During peak times you crawl anyway so no speed limit will matter or make any difference. It will just get confusing, especially being around train station which is being enhanced.

Q43. **Do you agree with our proposed speed limit for Paraparaumu Beach School?** You need to do less

Q44. **What feedback would you like to give us about the proposed speed limits at Paraparaumu Beach School?**

Q46. **What feedback would you like to give us about the proposed speed limits at Kenakena School?**

50kph is fine around a school. During peak times you crawl anyway so no speed limit will matter or make any difference. There are also other businesses around the school which show the traffic down ' KenaKena shops and TeAtiawa Park. There is no need to enforce any slower speeds and confuse local residents

Q47. **Do you agree with our proposed speed limit for Paraparaumu School?** You need to do less

Q48. **What feedback would you like to give us about the proposed speed limits at Paraparaumu School?**

Q66. **What feedback would you like to give us about the proposed speed limits at Paekākāriki School?**

not answered

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

Traffic in Kapiti is already crawling with so many elderly residents, and over subscribed traffic lights. To add in more speed restrictions whilst simultaneously increasing the dense population with apartment buildings is ridiculous. The traffic is already slow as a snail, it doesn't need to be reduced by speed limits as they will be irrelevant.

No one will hopefully disagree with lower speeds around schools, Marae's, ECE centres and other high pedestrian traffic zones, though 30km/h i(a 40% reduction) is possibly a bit low and will have negative flow on effects

It seems that council are intent on strangling the local roads with numerous unnecessary lights, speed humps and now overall speed reductions pretty much everywhere. This won't solve anything but it will further disrupt business locally and reduce interest from businesses outside the district form setting up here. As a council you need to be taking a pragmatic approach to every decision you make as it is the community that suffers from your poor decision making. This prospective plan won't prevent accidents or people getting hurt, personal responsibility and safety education for our young people will, basic road safety was taught in schools for years, it should still be part of the curriculum.

Q45. **Do you agree with our proposed speed limit for Kenakena School?**

Other (please specify)

Currently there is no safe crossing point on Arnold Road or Martin Road for students from Kenakena School, yet Paraparaumu Beach School has two safe crossing points for its two main access roads. The volume of vehicles on Arnold Road in particular during school pick up and drop off makes it extremely dangerous for children attempting to cross the road, with them being obscured by parked cars. A pedestrian crossing should be implemented near the school pedestrian gate to provide a safe crossing point.

Q1. **Do you agree with our proposed Speed Management Plan?**

No, I strongly object and I am not convinced of the need or of the rationale provided. The resulting plan amounts to micromanagement of all drivers who will have to cope with many speed transitions, doesn't target high-risk drivers who pay no attention to speed restrictions, and will diminish the quality of life due to increased journey times, increased visual pollution due to all the necessary signage, and speed compliance anxiety.

What problem is this plan designed to solve for Kapiti residence? That is, of the local road deaths and injuries, how many were involving day-time commuters traveling at or below 50km on residential streets? How many were involving speed within school zones? This plan involves detailed control of speed on every street within the area with only the very generalised argument of "speed kills". The build-up of regulations - particularly at the local street level, and particularly when there is no general clamour for a solution to a clear issue felt by the community - may ultimately result in feelings of disharmony and antagonism within the community, of disconnection, of us versus them. Initiatives like this should be used sparely and with solid and broad community support - not imposed and prescribed "from above", however good and well intentioned the motivations.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. I already avoid the 30km speed limited roads if at all possible. I also avoid rimu road by the library as it is so congested from the traffic lights.

It already takes us 15 minutes to travel from home to school (Nikau Valley to Kenakena) at current speed limits. Neither me nor the kids could cope with additional delays if local road speed limits dropped by almost half. I understand that the corridor roads are unaffected by the proposal. I completely oppose reducing local road speed limits.

Q1. **Do you agree with our proposed Speed Management Plan?**

Not entirely. I agree with reduced speed limits around schools but only at peak times when there are children and parents around at the beginning or end of school or when there are special events on. You want road users to buy into and respect the speed limits rather than be annoyed by them when they can't see the need for them. For example a permanent 30 kmph limit at Te Ra School doesn't make sense and drivers will ignore it when there is no-one around.

I encourage you to think about what you are trying to achieve and the best way to get drivers to accept and respect the limits. If a limit is for a specific time period make it apply only for that period. eg - Schools to have lower limits at drop off and pick-up times and for special events. - Town Centres to have lower limits when they are busy during the day but not at other times when they are quiet. You want drivers to go along with you on these changes and not be upset and ignore them.

Local knowledge should be sought in each case. Sometimes local conditions e.g. narrow road, tend to limit speed naturally. Also, in school hours, speed reduction seems unnecessary, and during school start and f8nish hours, volume of traffic presents natural impediments.

Q1. **Do you agree with our proposed Speed Management Plan?**

Overall NO. Some ideas are good, but blanket speed reductions based on no specific evidence of local risk factors is wrong.

Q2. **Would you like to answer on a specific area?** No

Does council actually take into consideration community feedback? A quick look at the council FB page would indicate that people are generally against the proposed plan. Judging by the way the redesign of old SH1 through Paraparaumu & Waikanae has evolved so badly from a traffic flow point of view, I'm not confident that council will get this right.

Q37. **Do you agree with our proposed speed limit for Paraparaumu College?** Yes, you've got it right

Q38. **What feedback would you like to give us about the proposed speed limits at Paraparaumu College?**

Agree with 30km/hr variable speed limit before and after school. But strongly disagree with the proposal to have permanent 30km/hr limit in the 2.5 km area around the College. Those are quiet streets with not a lot of pedestrian traffic outside the times school is starting and finishing. Introducing a permanent 30km/hr speed limit, without any evidence of safety concerns, is an over reaction, over regulation and unnecessarily restricts the activities of others.

Why aren't there questions in this survey about the longer term plans? Strongly object to the longer term proposals to extend 30km/hr limits so they apply permanently to areas 2.5 kms/hr around schools, or wider. There is no evidence of safety risk or near misses and imposing these limits is over regulation and unnecessarily imposing restrictions on freedom of movement and day to day activities.

Q1. **Do you agree with our proposed Speed Management Plan?**

Yes in principle. However I am a concerned resident of Walton Rd Paraparaumu Beach and don't believe that appreciate consideration has been made to connecting thoroughfares like my street. High acceleration is a persistent problem on a primary route between 3 high usage schools. The area is also primarily domiciled by young families and traffic management needs to be considered outside of school drop-off and pickup times. Particularly due to the corridor to sports fields, shopping centres and beach access

Q1. **Do you agree with our proposed Speed Management Plan?**

Yes and no. It's hard to agree or disagree as page 25-26 have FOUR options. I agree with Option 3. Whatever is implement, it will become increasing difficult for drivers to comply with speed limits if they change from street to street, day to day (school days vs. weekends) and month to month (school terms vs. holidays). It needs to be consistent throughout so drivers spend more time focused on driving, rather than figuring our what the speed limit of a particular street is as a particular time on a particular day.

Most suburban streets are slow enough without reduction in speed. Other than slower past schools at beginning and end of the school day, the rest is completely ridiculous.

The 800 metre section of Main Road, Paraparaumu (the old SH1) from Raumati Road heading north to Ihakara Street. This section of road has 9 driveway entrances and currently has a 'temporary' speed limit of 50kph The section of road from Raumati Road heading south to Poplar Ave, has 26 driveway entrances and is currently speed limited at 80kph By my observation, this section of road could safely support 60kph, which would attract better driver observance. The 50kph speed limit seems unnecessarily restrictive given the following ***low concentration of housing = few driveway entrances, ***housing on only one side of the road = few driveway entrances, ***wide road with shoulders ***no retail businesses on this section of road frontage ***main arterial route 'to town' ***excellent road marking and signage to guide and control traffic

Q65. **Do you agree with our proposed speed limit for Paekākāriki School?** You need to do more

Q66. **What feedback would you like to give us about the proposed speed limits at Paekākāriki School?**

The zone needs to be bigger - children walk to school from all over the village and this zone is just too small. We also need safe crossing points to help our children get to and from school safely. There is only one pedestrian crossing in Paekakariki, it is nowhere near the school. I think we must be the only school in the region where children are not given safe crossing points.

Speed limit should be permanent, not variable. School opens at 8.30 so many children are likely to be walking in the proximity of school grounds before 8.25. Likewise, children stay at school after 3 for after school activities. The crossings at the corner of Wellington rd and Tarawa st is a hazard as is the crossing over ocean rd along Wellington road. Both would benefit from raised pedestrian crossings.

Yes I want to comment about the blanket lowering of speed limits. Lowering speed limits overall will not work and lead to frustration, anger (inc road rage) and increase road congestion. Targeted areas is OK.

Q1. **Do you agree with our proposed Speed Management Plan?**

In general, I agree with the need to look at speed limits across our urban areas and have a plan to address unsafe areas. I live in Paekākāriki, and with a small village, footpaths largely only on one side of the streets, and lots of children, holiday makers, increase in local and out of town cyclists, and animals around I feel in general speed management plan in general does need to be addressed. The recent change of lowering the speed limit in the core main village street has been very good, and largely agree that speed limits across the village should also be addressed. I do however think the plan does not offer options as such, more the one option to address speed management is lowering the overall speed. However, there are various way to address traffic flow and speeds. And as we know from experience in Paekākāriki some people are always going to speed regardless of the "limit", especially around our schools and popular areas. In regard to the school area, and other popular pedestrian areas in the village, by the beach, sports fields, I would like to see a separate plan to put in other safety measures. I would say the estimate speed of cars around the school during school hours etc. is already 30km, and the surrounding streets are so narrow that often cars would be going less than that already, so is not really any change, would question is it addressing the actual issue and making it safer for the children.

Q65. **Do you agree with our proposed speed limit for Paekākāriki School?** You need to do more

Q66. **What feedback would you like to give us about the proposed speed limits at Paekākāriki School?**

I do support putting the blanket 30km surrounding area in place asap though, so it is visible and re prompt for people. As we know from experience near the fatal incident outside Paekākāriki school some people are always going to speed regardless of the "limit". In regard to the school area I would say the estimate speed of cars around the school during school hours etc. is already 30km, and the surrounding streets are so narrow that often cars would be going less than that already, so is not really any change, would question is it addressing the actual issue and making it safer for the children? My personal opinion is there needs to be more done for children crossing and cycling. We want to encourage our school children to bike and walk to school, at the moment it is largely setup for cars parking. I am not a traffic management expert so will not jump to any recommendations of what could be done to address that. What I would like to see is an expert come up with some options other than a speed limit.

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

As the "options" largely seem to be lowering of speed limit i would question why it is a 7-year plan. Is it due to spreading the cost to install all the signs over financial years, or does it actually take that long to get the teams to install all these signs.

Q1. **Do you agree with our proposed Speed Management Plan?**

I think the lower speeds around the schools are a good idea. I think they need to be time orientated, between 7.30am - 5.00pm and only on school days - not weekends or school holidays. This is the case in many other countries I have visited. I think 2KM around the high schools should again be only time orientated on school days, not all the time. I do not think the option 4 of cutting speeds down on all roads is a good idea at all. It is difficult enough to get around Kapiti. So I do not support it at all. I do not think we have a high accident rate to warrant that response. I think the creation of some dedicated crossings and pedestrian refuges are a good idea, I like the 2 suggested in Paraparaumu.

I think speed is not the only factor to look at - pedestrian refuges and crossing are helpful, also some traffic taming designs such as narrowing or bumps in a Rosetta Road, Wharemaukau Road, Menim Rd and along Matai Road in Raumati would be helpful. This is the area I live in and where I see excess speed by food trucks and boy racers. I do not think setting speed limits deter this behaviour, but physical bumps and occassional narrowing would - I have seen it in other countries.

Q8. **What feedback would you like to give us about the proposed speed limits at Waikanae School?**

The approach to speed limits around all schools needs to be consistent. There should be a permanent new speed limit OF 30km/h for all primary and secondary schools being applied WITHIN THE SAME TIMEFRAME by the end of June 2024. Pre-schools should also be included. I would strongly support the walkable catchment being extended to 1km for primary schools (up to 15-20 mins walk), instead of the proposed 100m and 2.25 km (up to 35-40 min walk) for secondary schools.

Q13. **Do you agree with our proposed speed limit for Te Horo Beach?** not answered

Q14. **What feedback would you like to give us about the proposed speed limits at Waikanae Beach Village?**

I generally support the idea of a reduced speed limit for local streets as is being proposed for certain streets around the Waikanae Beach Village, If the proposal proceeds, I would like to see something similar being done at the same time for the Waikanae hill area over the railway tracks. I would suggest that the need is more urgent. Down at Waikanae Beach, a number of the houses seem to be occupied for a small percentage of the year, being holiday homes. When visiting that area, at various times of the day, the lack of traffic is also noticeable. On the hill part of Waikanae, however, the new sub-divisions at the end of Seddon Street and Winara Avenue are attracting younger families, with ongoing development of land around Huia St and on the hills. As a result, there is a marked increase in traffic of residents, who on average own 2-3 cars per household, tradies, earth moving equipment etc.throughout the day. The current road speeds and configurations encourage speeding which can pose real problems for younger children walking or cycling to or from school and for older residents. It would be helpful to trial 30km/h on both areas.

I would like to see a much more aspirational Speed Management Plan which focuses on a sustainable, eco friendly Waikanae 30 years hence, There needs to be more incentives for people to walk and bike, rather than travel by car, especially in those areas where public transport is so handy. I would like to see more bike lanes, a consistent speed limit of 30 on local roads to promote quiet and safe residential access for all. I also think that the Plan should more closely align to that of Wellington City.

Q1. **Do you agree with our proposed Speed Management Plan?**

Yes, these seem like excellent plans. Slowing down the traffic calms things down, creates safer more people-friendly spaces, and helps reduce carbon dioxide emissions. Win, win, win!

Te Rā and Raumati South schools are quite close together. Between them is the bike trail entrance to Queen Elizabeth Park, with a busy bike crossing. I think making the whole stretch of Poplar Ave and Matai Road into a 30km/h zone would work best for keeping traffic under control and providing maximum safety for school students and cyclists.

Q14. **What feedback would you like to give us about the proposed speed limits at Waikanae Beach Village?**

30km in Waikanae town centre and in particular the beach is just ridiculous. These are residential streets for goodness sakes, with no/little evidence of accidents as a result of accidents at the current 50km. It's simply laughable you'd even contemplate 30km speed limits in these areas!! I agree schools need restrictions (kids are unpredictable) but residential streets...really? Hell, why don't we just lower all roads to 30km. I am totally astounded someone would even propose this rubbish!! What a waste of airspace and time and I'm fully against this drivel!!

Q1. **Do you agree with our proposed Speed Management Plan?**

Yes as far as schools and shopping areas are concerned but think that a 70k limit on all road corridors (not sure what that means) is too restrictive.

The plan does not mention the old state highway 1 between Peka Peka and Otaki which is at present a jumble of different speed limits some dating back to its SH1 days and others , usually temporary, which relate to the motorway construction period. I submit a single 80 k limit for the whole road would be appropriate.

Q1. **Do you agree with our proposed Speed Management Plan?**

I think reducing speed across the board is the wrong approach. It should be targeted to problem areas and supplemented by safe road design.

You missed one key area. You need to adjust the speed on "old SH1" between Paraparaumu and roundabout to Southward car museum.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. The plan is misdirected insofar as it will:- a)Slow down commerce eg goods delivery b)Slow down council services, rubbish collection c)Slow down transport, ie buses, taxis, private vehicles, plumbers, electricians etc d)Discourage tourism including day trippers from Wellington to Palmerston North and beyond e)Discourage immigration into the area and encourage emigration from the area As is obvious, each of a - e will create substantial increases in delivery costs, shop prices, council services provision, rates, business failures, falls in property values It should be appreciated that people have traditionally respected the law. A massive factor in that is that, by and large, laws have been reasonable, rational and sensible. Respect has to be earned and any body that introduces laws that are clearly unreasonable, irrational and nonsensical should have no expectation that such laws will be respected by that body's employers/financiers, in this case, Kapiti's ratepayers. I feel sure that any person that actually reads and considers this submission (and I have no confidence that this will occur), will be conscious that NZTA roadworks' cones/speed reductions has changed so that cones appear much earlier than necessary, much further in advance of the works occurring and remain too long after the work has been completed. It is common to encounter cones and limited speed requirements and reach to proper speed resumption sign with no roadworks being evident. As a consequence, and certainly in my observation, drivers are largely ignoring cones and speed limit signs until actual activity/loose metal/whatever is physically seen. In other words, they simply do what is common sense. NOBODY EVER RESPECTED STUPIDITY. Am I saying that I believe that speed reductions will be generally ignored and potentially cause accidents because of impatience? That is an unequivocal YES! Incidentally, introducing speed reductions around maraes and not other assembly places, ie Churches and the like, will clearly be racist and I doubt that any racist law would ever be enforcible in this day and age

On the day of preparing this submission, I travelled through Waikanae to Paraparam. With the new expressway available, I will not do this again. I could not believe that with traffic through the area cut by what, half? three quarters?, we (Kapiti ratepayers) have funded/will maintain not two sets of traffic lights but three! Really?!! With the greatest respect, whoever came up with this layout has serious problems. Even the middle set of lights by the railway crossing could arguably have been replaced by a roundabout. It is as obvious as the nose on people's faces, that replacement of the southern lights with a roundabout (as was the situation previously) and, maybe, introduction of a roundabout where the new northern set of lights are, would have seen a smoothly operating traffic system, requiring little maintenance, causing less fuel waste with breaking and accelerating and be less likely to discourage potential visitors to the Waikanae shopping area which, as things stand, seems doomed to a slow and painful death. I would respectfully urge reconsideration and on an urgent basis before the shopping centre dies BUT the principal reason for mentioning this abomination is in the hope of application of consequence assessment and common sense before further ratepayer money is wasted on this project, at least as it currently stands. I would remind you incidentally, that KCDC is increasing rates notwithstanding the dire inflation situation. That it would waste such money on the stupidity proposed really does beggar belief

Q1. **Do you agree with our proposed Speed Management Plan?**

Yes

Q2. **Would you like to answer on a specific area?** Yes

Q3. **Select the Community Board Areas you would like to provide feedback on:** Waikanae (includes Peka Peka)

Q4. **Select the Waikanae areas you'd like to provide feedback on:** Kapakapanui School
Waikanae Beach Village

Q5. **Do you agree with our proposed speed limit for Kapakapanui?** Yes, you've got it right

Q6. **What feedback would you like to give us about the proposed speed limits at Kapakapanui?**

Speed limit good. Need to address parking issues with parents doing drop offs & pick up parking on corners, parking on both sides of the street make the street very narrow.

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

Yes, I feel that the whole of Kapiti traffic management and speeds needs a different overhaul. the planning of old SH1 is a disaster, the traffic holdups are incredible, if as you say the population is going to grow so much over next 10 years then where is the planning for the traffic. The amount of new houses being built or planned to be built along or off Kapiti road, Ihakara street etc is amazing and where does this traffic go !!! Kapiti road is a nightmare now and more so at peak hours, but even after dark the amount of people running red lights is absolutely crazy . It is a wonder there hasnt been any fatalities at the lights. Every time we go out we see traffic not stopping for red lights or speeding up to get through. All Kapiti traffic going north or south has to go through Kapiti interchange . Everyone you talk too feels the same way. How do you get this feedback across. Dont have a problem with speed limits around schools being 30 but that is all I would agree with. Please review Kapiti Road and Old SH1 for set up and management. Put cameras on the traffic lights is an option.

I think having more safe islands (for crossing roads) is a good thing. Eg more on Te Moana, Kapiti Rd, Rosetta Rd, Raumati Rd, etc There are busy roads too where the footpath is right next to the road and cars doing silly speeds, the limit should be 40 on these roads. So more X crossings and safe Islands. Apart from arterial routes like Kapiti Rd, Rimu Rd for example, others should be 30km/hr

Its a load of bollocks, NZTA have falsely used NZ Police data that does not identify correctly DSI outcomes on NZ roads. Where the cause is not clear Police use speed as the default cause of a serious accident.

Within 10 years the majority of vehicles will have advanced safety features such as forward crash mitigation. Lower speed limits are not needed except for a few town centre areas. The changes around coastlands since sh1 moved are a traffic disaster creating gridlocked traffic. Lower speeds are worthwhile but there needs to be arterial speed and multiple lanes on at least ONE road around coastlands area. You should bring back two lanes by param station and remove speed hump crossing

Q52. **Do you agree with our proposed speed limit for Te Rā Waldorf School and Te Rāwhiti Kindergarten?**

Yes, you've got it right

Q53. **What feedback would you like to give us about the proposed speed limits at Te Rā Waldorf School and Te Rāwhiti Kindergarten?**

This speed limit will make it much safer for the children coming and going from not only Te Ra school, but also everyone using the cycle trail through Queen Elizabeth Park. I've been run off the road with my children several times as we crossed Poplar Ave at the end of the trail, next to the South end of Matai Road. This is an extremely dangerous section of road with the current speed limit and I'm very pleased to hear that the limit is being lowered.

Extend the 30km/h limit along the length of Tirimoana Road. All local roads, other than major connecting roads (eg Matai outside of school zone), should be lowered to 30km/h.

I'm in full support of lowering the speed limits around our schools and village centers. It would be good to see bollards, speed bumps and narrowing of roads wherever applicable.

This is an unnecessary piece of work that is not called for by road accident stats, but is dictated unnecessarily by WK who are scrabbling for ideas in order to achieve a political aim set up by the Road to Zero campaign.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. I have seen a combination of five different speeds proposed in the area. From 20km to 60im and this does not include roads such as expressway at 100km and old highway at 80km that still go through this area. More consistency in the speeds will help embed the change in speeds in resident's minds. I would like to see more pedestrian crossings in high school foot traffic areas such as Raumati Rd and poplar Ave.

Q1. **Do you agree with our proposed Speed Management Plan?**

Yes although I think it needs a few additional places

Q2. **Would you like to answer on a specific area?** Yes

Q3. **Select the Community Board Areas you would like to provide feedback on:** Waikanae (includes Peka Peka)

Q4. **Select the Waikanae areas you'd like to provide feedback on:** Kapakapanui School
Waikanae Beach Village
Waikanae Town Centre

Q5. **Do you agree with our proposed speed limit for Kapakapanui?** You need to do more

Q6. **What feedback would you like to give us about the proposed speed limits at Kapakapanui?**

The intersection of park Ave snd Ngarara is dangerous. It needs to have speed humps. Lots of children from school cross the road to go to the park everyday. Cars race in both directions. A lot of them are ute's and van's probably from building sites. They speed around at 50-60 KM. I can't count the times I've had near misses trying to cross with pushchair and it the dog. There needs to be a proper foot path along Ngarara road from the school to at least the Russel Reserve entrance. Then some safe way for walkers and cyclists to cross. I think the 30 KM needs to go to Walton Ave. maybe a speed bump at that spot. I think what happens is people come off the expressway snd forget to slow down. The kindy walk the children around the block and they have to walk them on the road to get back to the Russell Reserve entrance. Sooo dangerous. Plus it's grass and slippery and on a slope.

Q13. **Do you agree with our proposed speed limit for Te Horo Beach?** not answered

Q14. **What feedback would you like to give us about the proposed speed limits at Waikanae Beach Village?**

I am positive it needs include Field Way. People use the second bend from about 30-70 Fieldway as a race track. It needs a speed bump in the middle or make the road narrower there. They come screaming down from the north snd swing fast around the corner near hugh street. Quite dangerous for residents getting out of the driveway.

Q15. **Do you agree with our proposed speed limit for Waikanae Town Centre?** You need to do more

Q16. **What feedback would you like to give us about the proposed speed limits at Waikanae Town Centre?**

R tend it for the whole of ngaio Road.

Keep it as it currently as it is, Milne Drive is a very long Drive, do not penalise the rate paying residents by dropping the current road limit down to 30Kms. just because a school is at the top of the Drive. Most kids get picked up by their parents, sort the traffic lights out at this time of the school pick up and drop offs day! Don’t drop the speeding limits - because it simply is not going to work.

Reducing the speed limits is ridiculous. There is no need. The limits in place are as they need to, and should be. Fix the roads instead.

Q46. **What feedback would you like to give us about the proposed speed limits at Kenakena School?**

Kenakena School agrees with the proposed changes to Donovan Rd and welcomes these changes. Relating to Golf Rd, Arnold Dr and Percival Rd we believe more could be done to assist children with safer passage to and from school. We would encourage Kapiti Coast Council to install Pedestrian refuge areas alongside the variable speed restrictions. Golf Road in particular carries a large amount of the school traffic and has a large volume of commuter traffic especially in the mornings. Currently Golf Rd provides no safe crossing point for children. Children using bikes or scooters currently have no direct pedestrian ramps (some have been removed in the last year), adding to this the 90 deg corner of Golf and Martin roads further creates safety issues, not only for pedestrians but also vehicular traffic. Percival and Martin roads have particular features that make pedestrian and cycle travel more unsafe than usual, that is the hill each cross. The hill restricts the view of both cars and pedestrians when trying to cross/travel along these roads, with no Westen foot path along Percival Road children are forced to cross at either end with little warning of oncoming traffic. Percival could be included in the variable speed zone.

As a School we feel safe crossing points are more valuable than a simple reduction of speed. Providing tools for pedestrians gives them the power to make safe choices and also encourages people into more sustainable modes of transport, effectively reducing the amount of traffic on our roads in the long-term creating even safer roads. We understand and support the positive effect speed reduction has on collision outcomes, unfortunately not every driver adheres to said speed limits and providing areas for crossing alongside speed reduction gives pedestrians more time for making good choices. Many thanks, Craig Lambie on behalf of Kenakena School Board

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

Pukenamu Rd is currently 80kmh speed limit with a 60kmh limit at each end. While much of Pukenamu Rd is straight there is a bend at the southern end that has several driveway exits on it, and a bridge with no footpath or verge. This is a very dangerous corner particularly for horse riders and carriage drivers as we are forced to wait either end of the bridge while listening out for traffic and then making a dash across the bridge. Unfortunately, the drivers heading north have just seen a sign advertising that the speed limit has increased from 60kmph to 80kmph just before that corner and consequently are often speeding up. In addition those heading south have been enjoying a long straight at 80kmph and have no warning that the corner is deceptively sharp and that children on ponies or adults riding and driving horses might be just around the corner. I live at 218 Pukenamu Rd, and have up to 10 riders grazing their horses on my property who are keen to ride down Pukenamu and Puruaha Rds to the beach. Sadly horses are unpredictable, and many of the local riders have stopped using Pukenamu Rd because of the high speed limit. Some local riders have had such scarey previous experiences that they put their horses in floats and drive the 3km to the beach. I never used to mind riding Pukenamu Rd when I had an experienced horse who was predictable-ish in traffic, but I am regularly very scared now that she has retired and I have a younger horse who is still getting used to traffic speeding past. Pukenamu Rd is a corridor between three access points to the beach (Te Hapua Rd, Puraha Rd, and Te Horo Beach). It is marked as a horse riding route on the council's maps. Many horse riders enjoy doing the beach-road circuit, and this has been recently extended with the motorway shared pathway so that we can now ride a round route via Pekapeka Rd and beach and Te Horo Beach Rd and beach. In addition, there is a growing number of carriage drivers in the district - I myself drive a miniature horse along this road - and these round routes are fabulous driving. We would all be very grateful if you would reduce the speed limit on Pukenamu Rd to 60km in line with either end, and install signs asking drivers to give riders a 2 metre gap and drive Very Slow when passing. The horse riding and driving routes in Kapiti and particularly around Pekapeka and Te Horo Beach areas would be really great with increased warning signs and appropriate speed limits and I'm sure would attract riding and driving tourists with the right promotion. But regardless, Pukehamu Rd, Puraha Rd, Derham Rd, Paul Faith Lane, Te Hapua Rd, and Te Horo Beach Rds are all home to a lot of horse riding ratepayers, and all of them and their children would like to be able to ride safely to the beach and home again.

I was hoping that the corner of Raumati and Matai roads would be included in the plan. Traffic does not stop at the stop sign. I live near there and see that the driving habits of people are getting worse. I put hazard lights on to highlight me as i reverse into my drive and virtually no one slows down. I’m afraid I’ll be hit. People turning left out of Matai Rd onto Raumati road don’t stop and only look right at traffic coming around the corner, not left where I am reversing into my driveway. Many Drivers are on their phones and speeding. A bad combination

Raised pedestrian/cyclist crossings are needed on Mazengarb road if speed isn't being reduced. Currently, it is more dangerous to use the shared path as a cyclist, because of the poor quality crossings, so I use the road. I wish I felt safer to use the shared path, as it is sketchy at best on the road.

Q1. **Do you agree with our proposed Speed Management Plan?**

No, 30kmh is far too slow. 50kmh is a relatively safe speed for new and experienced drivers. There is no need for the speed to drop this far. This is outrageous!

It is a terrible idea. If this was to be lowered many people will still be driving at 50kmh. This is because 30kmh is too slow and people have places to be. This shouldn't have even been a consideration. Instead you should use this energy to something more productive such as better roads. Fix the potholes.

No this is a terrible idea. It is outrageous to lower the speeds this low. I'm sick of already driving at 30 and you guys need to use your energy on something more productive.

Focus on useful things instead of trying to force us off the roads by making us drive slow. Maybe teach people how to drive e.g a driving course. Instead of forcing people to idle around at a snails pace.

There are 2 child day care/kindergartens in the same vicinity as the primary school. It's difficult to determine from your plans, but hopefully the new speed restriction will include them. This is a vast improvement on the seemingly ludicrous current situation where the 30 kph fails to include any of these establishments.

Q63. **What feedback would you like to give us about the proposed speed limits at Raumati Beach Village?**

The speed limit is fine. However as we live on Rosetta Rd near Garden Road, we notice very little adherence to the limit in either direction. There is little doubt that a speed hump close to the Garden Rd entrance on Rosetta, and at the beginning of Matatua Rd by the bowling club, would assist in keeping the vehicles to a reasonably safe speed. The lack of a footpath on the Garden Rd side of Rosetta, means pedestrians are forced to walk on the road and around vehicles which are parked on the berm while approaching the pedestrian crossing. From personal experience, this can be extremely nerve wracking and dangerous. Pedestrians attempting to cross Matatua Rd from either the bowling club or Raumati Sands accommodation really do take an awful risk. A pedestrian ' safe haven' in the centre of the road would be valuable. It's a shared opinion that Raumati Beach is discriminated against when it comes to speed humps. They appear in Raumati South, are plentiful in Paraparaumu and Paraparaumu Beach and Waikanae, but there are none in Raumati Beach which features a College, Primary School, pre-school centres, a bowling club, pub, pharmacy, medical centre, churches, a grocery, three cafes and an array of shops. It is a busy place and by the end of the second phase of your plan, will be even busier. Thank you very much for being provided the opportunity to contribute to the survey. It is very much appreciated.

Q33. **What feedback would you like to give us about the proposed speed limits at Riverbank Road?**

Proposed 50km area is good. I would like to see the proposed 50km area extended for the full length of Riverbend Road. I would also like to see a cycle/ walk route for the full length of Riverbend Road (off the current carriageway). There is increased industrial traffic for the full length, and the route is used to access Ōtaki Beach, from the expressway. At times the road is very busy and the carriageway west of Aotaki Street is narrow, leaving minimal room for walkers and cyclists. There appears to be plenty of room on the verge for a shared path to be developed. Until a path can be developed, a 50km speed limit is appropriate.

Blanket changes too wide ranging. Around educational facilities down to 30kmh. Increasing traffic levels will have same affect of slowing down traffic. Impatient/ red light runners will still be impatient and run red lights. More enforcement in this area perhaps cameras at lights etc. Cyclists without helmets, in dark clothing, riding on footpaths and without lights are just as hazardous.

It is already a bottle neck getting in and out of Milne Drive during school arrival and home time and to be honest it's difficult to go above 30km you are crawling at best so why change it. Has there been a recorded accident along there? And why not actually ask the people that live in Milne Drive what they think face to face instead of expecting them to find out mostly via Facebook. How far along Milne Drive will this 30km go, it's not as if it is a through road. And no speed bumps, this will make it even worse.

Consultation is a good thing but no matter what happens accidents do happen regardless of what speed people are going. Most people are carefully around schools and maybe just put signs around the schools (as there are in some cases now). There will always be issues with carers driving children to school (you cannot always live near the school) but what also has to be remembered is that road safety needs to also be taught to the children, make them more aware of their surroundings. Also parents who drop off are not that aware either of what is going on, they just stop and park in the most ridiculous places/way. I doubt if my comments will make any difference though as decisions have already been made and no matter how many voices are questioning/opposing plans it will always go ahead. Where is the money coming from the get this sorted, and would that money not be better spent on the areas around schools that have issues. Has research been done into what is proposed? Also should children not be encouraged to walk more so maybe think about making pathways better for them and in fact all. Don't make more cycle lanes that are only gone to be used by a few, make more cycle lanes away from the roads that way all will be better protected. Thank you

Your map includes placing the 30kph speed limit on private roads within Midlands Gardens Retirement Village. The Kapiti Retirement Trust owns this property and currently has a 20kph speed limit set for these roads. They should be removed from your plan. The roads included in these are Trent Drive, Cherwell Court, Derwent Close, Knightly Way, Somersby Court and Southwell Court.

I think it's a good idea; There are some blind corners with very little to stop cars from speeding around corners with no warning. The only problem I can think of is the fact that the current roadworks near the station have resulted in terrible traffic stretching around the entire area, so cars moving even more slowly might not be a good thing.

Q61. **What feedback would you like to give us about the proposed speed limits at Raumati South Village?**

Raumati South (South of the shops) has a number of streets with no footpaths. Therefore I believe that the speed limit should be 30 along the Esplanade, Forest Road, Kainui Road, Tennis Court Road (parked can cars make the road very narrow), Jeep Road etc. Children walk these roads every day to school and cars are often going way too fast in Raumati South - on particular the straight stretches of road (Tennis Court Rd and The Esplanade).

Q1. **Do you agree with our proposed Speed Management Plan?**

I support the slower speeds around schools, but I'm not entirely convinced it is the whole answer, and I think you're moving too slowly. Part of the issue around schools now is lack of sensible/adequate planning that would have allowed for there to be space/safety for cyclists and people on foot, to handle the volume of cars needing to get in and out of school areas efficiently (lack of area for people to park cars when picking up from schools), and for through traffic (people just wanting to get past schools in peak traffic - which is around pick up/drop off). I am also in favour of more rapid change - our children and young people in particular need more safety now. What is the reason for the slowness of proposed change?

I think you need to broaden the timeframe 30 km variable applies, particularly in afternoon (eg make it from 2:30pm to 3.30pm and 8am to 9.30am. I would even consider making it permanent at all times (then save money on the variable sign), as it potentially would have a greater impact on drivers to drive safer in these urban areas, assuming it was adequately enforced. Traffic cameras could be installed. There also needs to be safe pedestrian crossings on Utata St, Winara St, and Elizabeth St both at railway crossing at down by dairy/Seddon St. All these crossings need to be safe regardless the time of day and whether or not there is a school patrol operating. I think Seddon St intersection with Elizabeth St needs to be a round about. Probably also one for Winara onto Elizabeth. And there needs to be an alternative exit from this side of railway to ease the pressure/congestion on Elizabeth St.

Again broaden the timeframe 30 km variable applies, particularly in afternoon (e.g. make it from 2:30pm to 3.30pm and 8am to 9.30am). I would even consider making it permanent at all times (then save money on the variable sign), as it potentially would have a greater impact on drivers to drive safer in these urban areas, assuming it was adequately enforced. Traffic cameras could be installed. I think you also need to consider extending the reach of the plan down Mazengarb road, as there is a daycare on Hudson St and its very hard for people to turn right here at peak hour traffic and also no safe crossings for pedestrians, and no safe cycle lanes. The Hudson St intersection needs to be a round about, and there needs to be driver education on how to indicate. There is a similar problem for turning out of Mazengarb park and crossing the road. At peak times drivers don't indicate and people are taking chances trying to get across the roads. Slow speed might help this at peak school times as well. I think you also need to look at measures Ratanui road - its difficult for cycles, pedestrians and people in cars trying to park or access their driveways or the driveways of the daycare and swim school.

Q42. **What feedback would you like to give us about the proposed speed limits at Our Lady of Kāpiti School?**

Milne Drive - proposed 30km/h should not include all of Milne as there is no thoroughfare to Trent Drive, Compass Court, etc. so the shape of the buffer zone is not fit-for-purpose and so the 30km/h speed limit should not extend that far back into Milne Drive. As a resident who has lived in Milne Drive for over 20 years, it is clear that the roads are wide enough and there is simply not enough foot traffic along this road to justify lowering the speed limit to 30km/h. However, I do agree that Presentation Way should be lowered to 30km/h for safety of children being dropped off/picked up and the pedestrian refuge island on this road is sensible.

In general, the decreased speed zones around Kapiti Coast will negatively impact emergency services such as paramedics and volunteer fire fighters who will find it more difficult to respond to their stations in an acceptable timeframe - this will lead to slower response times for emergencies such as fires, adverse weather events, medical events, and traffic crashes which will negatively impact residents of the Kapiti Coast and the wider community.

Q16. **What feedback would you like to give us about the proposed speed limits at Waikanae Town Centre?**

None

Q17. **Do you agree with our proposed speed limit for Peka Peka Road?** You need to do more

Q18. **What feedback would you like to give us about the proposed speed limits at Peka Peka Road?**

The road is currently dangerous for cyclists. Not only is the current speed limit too high, but there is zero shoulder, the road edge is broken and problematic for cyclists (no ability to go off the road), and the road surface is undulating (problem for cars speeding). I use this road daily as a cyclist and car driver. There is an accident waiting to happen here as some cyclists who use the route are inexperienced in traffic, especially when the latter is travelling at high speed. This road is increasingly busy. You should consider dropping the speed limit to 50km/h, not 60. Plus you need to work on the road edge to provide some sort of shoulder for cyclists.

I am curious as to why you are treating Peka Peka Rd differently from Paetawa Road. Both are just as busy and both almost the same in terms of housing density

Q41. **Do you agree with our proposed speed limit for Our Lady of Kāpiti School?** **Other (please specify)**
The speed limit should only apply for the section of road that links Our lady of Kapiti with Milne Dr.

Q42. **What feedback would you like to give us about the proposed speed limits at Our Lady of Kāpiti School?**

I do not agree that Milne Drive should be reduced to 30 km/hr. The road is extremely wide and there have been no major accidents (that I as a resident) know of that would dictate a drop to such low speeds. Traffic speeds can be high at times, however dropping the speed limit will not affect this. Milne Dr should stay at 50km/h.

We believe that the current speed limits in the Kapiti Coast area are unsafe. The council proposed an idea to reduce some speed limits in the area to 30 km/h. We support this decision and we wish to encourage others to spread their thoughts and beliefs about the speed limits in Kapiti. The council has 2 different parts for their plan. Part a involves what the council has proposed to implement up to the end of 2027, comprising high priority high-benefit areas

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

While there is sound reasoning behind the need to reduce traffic speeds, the proposed plan is likiley to cause confusion and frustration as traffic moves between the various zones. Perhaps a better idea is to set an urban limit of say 40km/h and be consistent throughout the whold region. The designation before and after school will be problematic, will specific times be notified on the road signs? What about holiday periods? Schools that have different hours of attendance?

Q18. **What feedback would you like to give us about the proposed speed limits at Peka Peka Road?**

We live at Peka Peka and both drive and ride bikes on PP road. The road surface is very uneven (its swamp land) and the shoulders are virtually non existent. That means it's too easy for cars that travel > 50 km/h to keep a safe distance from cyclists and horse riders. I feel it should be 50 km/h limit. Likewise I feel for Raukawa road, where I live, that should have a 50 km/h limit.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. It's ridiculous. Roads, cars, technology and policing are all at the most advanced and safest in modern history and this absolute cluster of a plan might as well get us back on horses. The changes made in the last 2 years make this district a frustrating place to drive and the moronic plan to drop more limits to 30-40 is just unbelievable. Local roads should be 60 with low speed zones (40) around schools etc for designated times only.

The speeds you are suggesting are too slow and will result in more accidents etc as people get frustrated with not being able to move around the district easily. You have already caused enough issues on the roads with adding in unnecessary traffic lights, we don't need to be crawling along the roads at the same time

Do not feel it is helpful to roll back speed limit to 30km/h generally in urban areas & also think all the work that has been done to old SH1 in Waikanae and Paraparaumu around Coastlands has only brought back congestion that had been resolved after the express way opened. Now happening with way less traffic in the area due to all the narrowing and remedial work of the old SH1. The old SH1 was so much saver with the reduced amount of traffic, no need for roundabouts and traffic lights (they would have been needed before with the high traffic volume, but not any more after the express opening). All the money for redoing the old SH1 could have been spent for more urgent matters like better road surfaces and pothole repairs etc.

Q11. **What feedback would you like to give us about the proposed speed limits at Te Horo Beach?**

I would like to see the speed limit on Pukenamu road reduced to 60km. In line with the begining and end of the street. It is an access way to Te Horo Beach and there at a lot of properties located on the road. It is a popular horse riding and carriage driving area and it has become very dangerous with the speeds People go down the straights and into the corners. I both ride and drive in the area and sadly I am often fearful to use pukenamu road. I would like to see better signage and potential monitoring of speeds in this area.

Q1. **Do you agree with our proposed Speed Management Plan?**

Firstly, the proposals fail to identify the specific problem(s) they are supposed to be addressing. Secondly, they are somewhat vague and nebulous. For example, the term "road corridor" can be applied to any road, anywhere. It is meaningless in this context. When we look forward ahead to beyond 2027 we find a proposal to reduce ALL local roads to "safe and appropriate speed limits" What a nonsense term. Safe is a relative term. Appropriate is a completely subjective term. On what basis, exactly, is a 30kmh limit on Mazengarb road, for example, supposed to be "safe", and how, exactly, has the current 50kmh limit come to be deemed as "unsafe".

I have made most of my comments in response to the previous question. I have no issue with speed restrictions around schools and, perhaps, places like retirement villages, but 30 or 40kmh blanket restrictions on entire stretches of safe roads are absurd.

Q1. **Do you agree with our proposed Speed Management Plan?**

No - While I understand that this is driven by central government legislation, I don't support he the concept of reducing speed limits to 30 or 40kpm where they are currently 50kpm. I accept that around schools' entry "100 or 200 meter" it is reasonable to have lower speed limits but mainly variable based on school hours. Some of the corridor can be reviewed based on increase in housing density.

I don't understand why the proposed limits extend down Milne Drive and surrounding streets as far as they do. This is inconsistent with other schools where the speed limits are reduced primarily at the entry to the school. We live on Milne Drive and school foot or bike traffic is very low, most of the car traffic is from Kapiti Rd. Kids walking from Milne or Raumati come either down the Motorway bike track or Milne Drive. Mile Drive Road is wide and has foot path both sides and low traffic volumes. Where is the data to support such extensive drop in speed limits and why different from other schools? Suggest the plan reduces the speed limits say 200 meters only to the south of the main say at the end of the commercial zone.

I simply don't support a plan to reduce the speed limits beyond school entries to 30 or 40km/h. We actually have good wide roads in comparison cities like Wellington plus good footpaths. We seem to be living in a world where we are passing the responsibility for safety to 3rd parties (car drivers) rather than individuals (pedestrians and bike traffic). I accept there is aways a duty of care when you drive a car which is covered when you get a driver's license, but this plan goes too far. You can always aim to justify the plan with the statistics and variable which can be both subjective and objective. My discussions with friends and family are what we as the community want is keep speed limit as they are now. I would like to see the raw data used in the plan is that available on the web site.

Q1. **Do you agree with our proposed Speed Management Plan?**

Mostly. But the 30kph area around schools must be carefully considered as it will slow traffic too much for most of the day, And it can be very slow moving around anyway with all the lights on Kapiti Road and the very slow bit and too many lights through the "town centre". The slow areas through each "village" is essential and should be consistent through each and same traffic controlling features for each, eg speed humps.

Also install the signs that flash when you are going to fast to encourage people to slow down. Do some monitoring of people's speeds and fine them if they are going too fast, they are a danger to the people going about their day to day business in the villages

40km/h on main arterial routes like Kapiti road is nuts, where are the statistics that point out how many accidents, injury's and deaths have happened on our roads over say the last 20 years. 40km/h on some of our other roads eg Alexander, Kiwi ,anaru maybe justified.

Q1. **Do you agree with our proposed Speed Management Plan?**

No, all the speed limits around schools should be variable based on normal operating times - maybe extend these to be a bit earlier or later but fixing speed limits for well out of school hours is just a nuisance to road users.

Slowing down traffic will add to an increase in delivery costs which will be paseed on the consumers. Commuting times will increase and people may ignore slow speads on roads if they serve no obvious purpose

Q1. **Do you agree with our proposed Speed Management Plan?**

Yes we agree with reducing speed around our schools and improving safety.

Q2. **Would you like to answer on a specific area?** Yes

Q3. **Select the Community Board Areas you would like to provide feedback on:** Waikanae (includes Peka Peka)

Q4. **Select the Waikanae areas you'd like to provide feedback on:** Waikanae School
Waikanae Town Centre

Q5. **Do you agree with our proposed speed limit for Kapakapanui?** not answered

Q6. **What feedback would you like to give us about the proposed speed limits at Kapakapanui?**

not answered

Q7. **Do you agree with our proposed speed limit for Waikanae School?** Yes, you've got it right

Q8. **What feedback would you like to give us about the proposed speed limits at Waikanae School?**

These speed limits are only part of the solution to making the school area a safer place. We also suggest: Making a pedestrian (zebra) crossing on Winara Ave, replacing the Kea crossing. Adding a pedestrian crossing on Elizabeth Street outside the dairy. Adding a pedestrian crossing down Te Moana Road with a protected harbour in the middle. Reducing the speed around our school and adjacent streets to 30 km/hr. There is a proposal to make this variable for school times. Signage around the school streets to encourage speed reduction. Adding 'show your speed' signs leading into our school area. Fixing the Traffic lights algorithm on Elizabeth Street train crossing- The traffic flow is slow turning right into the old state highway, meaning you can be stuck there for several light cycles. Investigating opening a 2nd train line crossing at the bottom of Hira Street (North of Waikanae Station, therefore avoiding the regular train services). A bike lane down Te Moana Road. Footpaths on both sides of Te Moana Road.

Q9. **Do you agree with our proposed speed limit for Te Horo School?** not answered

Q15. **Do you agree with our proposed speed limit for Waikanae Town Centre?** Yes, you've got it right

Q16. **What feedback would you like to give us about the proposed speed limits at Waikanae Town Centre?**

Sorting the light algorithm to turn right out of Elizabeth Street would help reduce traffic on Marae Lane as it is quicker to turn left and go through this way currently. We would also like to see a much safer intersection around Te Moana Road, Old State Highway, Elizabeth Street for cyclists, especially if we are going to encourage bikers.

Some important traffic management concerns are not included in part A. We would be keen to trial a one-way system around the school perimeter to see if it has a positive impact and for a second railway crossing on Hira Street. Plus some consideration for the town houses with limited parking on Utauta Street.

Q7. **Do you agree with our proposed speed limit for Waikanae School?** **Other (please specify)**
Substantially "yes" but clarification please. Firstly, The "Kura School" signs are electronic and will reduce speed from 50kph to 30kph during the school times only? I imagine this to be the case but it is not explicitly stated anywhere. Secondly, make the variable times simpler - why 8:25 - make it 8:30 . Why 2:55 (!) - make it 2:45 or 3pm. This makes the signs clearer and less pedantic.

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

1. I just want to be certain. The copious NZTA material does not refer anywhere to actual speed limit , so only propose any changes to speeds that are obviously sensible such as around schools and shopping areas. For everything else, leave existing speeds. 2. You talk about traffic calming mechanisms. Remember these are de facto speed limits so they must only prevent or inhibit speed above the legal limit. They are in effect "speed limiting signs". 3. The push for reduced speed limits is often alongside what appears to be data about injuries and death, but my understanding is that most of the data does not relate to pedestrian injuries/death so let's not be dishonest or disingenuous with the figures. Popularly people point to these figures as indicating risk to pedestrians but that in fact is not the case. I suggest therefore that there is not as great a reason for any change to speed limits as might be imagined. 4. I am grateful that KCDC is not proposing the silly and incomprehensible nonsense that WCC is suggesting with 30kph general application. Have you traveled around Kapiti Coast doing only 30kph? Try it. It is extraordinarily slow and would adversely affect commercial vehicles, require a stupid rate of travel at all hours of the day and night, frustrate drivers and provide yet more revenue for the government (Police enforcement). Apart from schools and shopping areas, there is no need to alter ANY of the current speed restrictions.

Q44. **What feedback would you like to give us about the proposed speed limits at Paraparaumu Beach School?**

I totally agree with lowering the speed limits around all schools but this particular road is like a speed track especially during the night. Many a time we are sitting in our lounge thinking 'hope nothing was crossing the road then, would'nt have made it'... A speed count was undertaken I think in November 2021 but the results didn't reflect the true picture. Cars gather speed on Gray Avenue coming off Eatwell Avenue and the using the hump by the reserve entrance and not slowing down. I would personally like either a raised pedestrian crossing at the school (like the one on Mill Road Otaki), or a chicane to slow the cars down. Something definitely needs to be done to slow cars down on this busy road

Q66. **What feedback would you like to give us about the proposed speed limits at Paekākāriki School?**

Paekākāriki is a small village with a lot of walkers and cyclists. The entire village should be 40kmph permanently. This would make it safer for existing walkers and cyclists and encourage others to get out of their cars. The proposed 30 kmph zone around the school is too small. There should also be a crossing of Wellington road at Campbell Park.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. I believe the speed management plan is ill-considered and lacks proclivity. It also lacks focus and is light on vision & leadership in this extremely important area. It appears to be driven by overarching NZTA funding parameters by focussing reducing speed limits with limited focus on the management of speed & traffic calming. It certainly does not focus on what is good / needed by the community and ignores many high benefit areas. The plan has completely ignored the area of Te Moana Road between Park Avenue & Old SH1 which has one of, if not the the highest concentration of active road users in Waikanae. Council monitoring over the past five years has identified an average of around 7500 each & every day on that section of Te Moana Road, the vast majority (circa 80%) of which exceed the 50kph limit. Incidences of 70,80,90 speeds are common (up to once a minute) and occasionally exceeding 110 kph. Additional noise from this uncontrolled speed is at times well above acceptable levels (two to three times above the 50kph norm) with additional health risks from stress, anxiety, lack of sleep and loss of enjoyment from our gardens. As a residential road, with many pedestrians, children on way to school, early childhood centres, bowls club, retirement villages and the like, the road desperately needs effective speed management & traffic calming measures, as well as normal pedestrian safety facilities (there are no zebra crossings for example) and a considerably less vehicle - centric mindset than is currently being demonstrated by council officers and has been for many years. The risks of high speed are a constant theme in the Speed Management Plan. Statistics about 70% of injury crashes having speed as a factor, a death risk of 80% at 50kph are noted in the plan and yet completely ignored as regards this section of Te Moana Road where over two million vehicles are exceeding the speed limit each year. These vehicles include significant and regular numbers of large logging trucks, heavy construction vehicles and the like where the risk of death is considerably higher than cars. The road markings in the 420-470 Te Moana Road section are considerably adding to the risk, bringing these heavy vehicles very close to residents mowing berms and considerably enhancing opportunities for those who want to go fast. Likewise, Park Avenue has similarly been ignored in this speed management plan with similar safety issues. The benefit areas of Waikanae such as the noted areas of Te Moana Road and Park Road need urgent speed management/traffic calming focus and must be included in the 2024-2027 plan. To continue to exclude would go completely against the main rationale for what council is proposing. That is " Why Does Speed Management Matter" I would be more than happy to speak to Councillors on this submission if provided with that opportunity.

Q2. **Would you like to answer on a specific area?** Yes

Q13. **Do you agree with our proposed speed limit for Te Horo Beach?** not answered

Q14. **What feedback would you like to give us about the proposed speed limits at Waikanae Beach Village?**

The area identified in the Speed Management Plan does not meet the high concentration of active road users to satisfy the benefit area criteria. Traffic moments are relatively low on these streets (some would not have a traffic movement for 5 minutes or more) with most of the area characterised by very narrow streets with inherently calm traffic below. The area of Tutere street noted is already calmed with regular roundabouts and slow traffic generally 30kph or less. Instead of this low benefit area, the resources should be directed to high benefit areas where council have already identified excessive speed & unsafe conditions, particularly Te Moana Road from Park Avenue to Old SH1 where there is a very high concentration of active road users (over 2 million per annum) and Park Avenue itself.

Q15. **Do you agree with our proposed speed limit for Waikanae Town Centre?** You need to do more

Q16. **What feedback would you like to give us about the proposed speed limits at Waikanae Town Centre?**

The area identified for Waikanae Village needs to be considerably extended to meet the high benefit area criteria. If council is serious about speed management the area of focus for attention (saftey measures, traffic calming & a speed limit of 30 kph) should include the area bounded between and including Te Moana Road / Marae Lane, Martin Road, Kapanui Road and Omahi Street. This would ensure all the high benefit around the village including both supermarkets, all three accesses to the park & ride rather than just the Marae Lane one and the main concentration of business / commercial & restaurant/ hospitality premises.

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

The Speed Management Plan notes that safe and appropriate speeds give people the best chance of survival. There are clearly major omissions with regards to Waikanae with Te Moana Road and Park Avenue which have high concentrations of active road users being completely ignored in the plan. Continuing to do so while including low traffic volume areas in Waikanae Beach is a significant oversight, goes right to heart of speed / traffic management and compromises the overall plan and objectives. Definitely brings into question the whole process. I would be happy to speak to this submission.

I agree with the principle of lower sped limits around schools etc during term time but many of the other lower speed limits are too broad and harder to justify, leading to delays and frustration for private and business motorists, A more targetted & justified approach should be adopted.

The main road in Waikanae is Te Moana Road. This road needs speed limitations, a crossing for school children and better parking. Large trucks should be banned and made to use the former state highway 1.

Q1. **Do you agree with our proposed Speed Management Plan?**

No.

Q2. **Would you like to answer on a specific area?** Yes

Q3. **Select the Community Board Areas you would like to provide feedback on:** Waikanae (includes Peka Peka)
Paraparaumu

Q4. **Select the Waikanae areas you'd like to provide feedback on:** Kapakapanui School
Waikanae School
Waikanae Beach Village
Waikanae Town Centre

Q5. **Do you agree with our proposed speed limit for Kapakapanui?** You need to do less

Q6. **What feedback would you like to give us about the proposed speed limits at Kapakapanui?**

Variable is fine but not permanent. At school time the roads are so slow no one can do above 20. The rest of the time please don't slow the community down. I know there is a pool there, but it's closed half the year, and has a pedestrian crossing in place. Put in the platforms if you must there, but let the other streets flow smoothly. The real risk here is completely missed. We need footpaths and safe crossings on Te Moana and Park. That will help the community 365 days per year. Stop replacing the footpaths on Tutere, Walton, Sylvan. They are fine. Put them in where there are none for kids and for elderly.

Q7. **Do you agree with our proposed speed limit for Waikanae School?** You need to do less

Q8. **What feedback would you like to give us about the proposed speed limits at Waikanae School?**

Pedestrian crossing on Winara would be good. Again, traffic is slow at school time so variable is fine. The real issue, and until you address this nothing else you do will fix it, is the lack of a second railway crossing. Put on in north of the station to bypass all the commuter trains, and it will fix everything. I promise.

Q14. **What feedback would you like to give us about the proposed speed limits at Waikanae Beach Village?**

You're trying to fix something that isn't broken. The only busy area is Longbeach to 4 Square, and traffic is always slow by necessity. Leave this area, and focus back up Te Moana where they need a crossing and a footpath.

Q15. **Do you agree with our proposed speed limit for Waikanae Town Centre?** You need to do less

Q16. **What feedback would you like to give us about the proposed speed limits at Waikanae Town Centre?**

Again, you're fixing something that isn't broken. This is a arbitrary road you've picked to "do something." Head two km west down Te Moana and put in a footpath and a crossing.

Q38. **What feedback would you like to give us about the proposed speed limits at Paraparaumu College?**

This is good. Why can't you do this at Kapakapanui. There is less foot-traffic outside school drop-offs in Waikanae than here.

Q39. **Do you agree with our proposed speed limit for Kāpiti School?** You need to do less

Q40. **What feedback would you like to give us about the proposed speed limits at Kāpiti School?**

Keep it simple and stick to 30 for consistency.

Q46. **What feedback would you like to give us about the proposed speed limits at Kenakena School?**

Speed is good, but again, for consistency I don't understand why humps here but not others. My suggestion is all schools have variable 30km and no humps (because humps are a bad idea when 50 and outside school hours).

Q67. **Are there any further comments you'd like to make about our Speed Management Plan?**

My overall comments are: 1. Please be consistent and you'll get consistently better driving. Variable 30km around all schools, no humps. 2. Please put in safe crossings and footpaths on both sides of our busiest roads like Te Moana and Park. This would be the biggest tangible improvement to safety.

i'm all for protecting schools zones during school hours, id even support extending by say 200 m. I do not support blanket area wide speed restrictions. Current sppeds limits need to be enforceed, the people that break them now will continue to break them, this just incoviences the majority of residents. Push back against Whaka Kotahi and suggest the raise the expressway limit to 110. It is an express way !!

Q1. **Do you agree with our proposed Speed Management Plan?**

No. I believe the plan is simplistic and with a primary focus on one simple metric, speed limits, rather than the wider speed management area. No serious consideration appears to have taken in developing the plan of other NZTA metrics including volume of traffic, likelihood of injury in low versus high volume traffic areas. This is most dramatically brought into focus by council indicating that for example Ngapaki Street or Hona Street in Waikanae Beach is more deserving of Speed Management than Park Avenue the section of Te Moana east of Park Avenue to Old SH1. These roads have a high concentration of active road users which better fit the criteria of high benefit areas compared to Ngapaki Street. Additionally NZTA have identified that the risk of pedestrian injury on roads such as Te Moana Road is significantly higher than that of small local roads such as Ngapaki or Hona. Additional NZTA advises that 75% of pedestrian injuries occur on roads with more than 2900 vehicles per day such as the section of road between 420 and 470 Te Moana Road, a similar length to Ngapaki Street. Daily volumes are intuitively 50 times greater on that section of Te Moana further confirming a significantly higher risk profile. Additionally many of the traffic calming examples mentioned in the plan for future use appear at odds with current best practice. The plan certainly does not focus on what is good / needed by the community and ignores many high benefit areas. Council monitoring over the past five years has identified an average of around 7500 each & every day on the 420 - 470 section of Te Moana Road, the vast majority (circa 80%) of which exceed the 50kph limit. Incidences of 70,80,90 speeds are common (up to once a minute) and occasionally exceeding 110kph. Additional noise approaching 100 db from this above 50kph speeding is a major health risk As a residential road, with many pedestrians, children on way to school, early childhood centres, bowls club, retirement villages and the like, the road desperately needs effective speed management & traffic calming measures, as well as normal pedestrian safety facilities (there are no zebra crossings for example) and a considerably less vehicle - centric mindset than is currently being demonstrated by council officers and has been for many years. The risks of high speed are a constant theme in the Speed Management Plan. Statistics about 70% of injury crashes having speed as a factor, a death risk of 80% at 50kph are noted in the plan and yet completely ignored as regards this section of Te Moana Road where over 4000 vehicles passing each house EVERY day are exceeding the speed limit each year. Council officers have noted a high incidence of over 61 kph traffic which has an even higher above 90% death rate. These speeding vehicles include significant and regular numbers of large logging trucks, heavy construction vehicles and the like where the risk of death is considerably higher than cars. The road markings in the 420-470 Te Moana Road section are considerably adding to the risk, bringing these heavy vehicles very close to residents mowing berms and considerably enhancing opportunities for those who want to go fast. The high benefit areas of Waikanae such as the noted areas of Te Moana Road and Park Road need urgent “best practice” speed management/traffic calming focus and must be included in the 2024-2027 plan. To continue to exclude would go completely against the main rationale for what council is proposing. That is “ Why Does Speed Management Matter”

Q2. **Would you like to answer on a specific area?** Yes

Q13. **Do you agree with our proposed speed limit for Te Horo Beach?** not answered

Q14. **What feedback would you like to give us about the proposed speed limits at Waikanae Beach Village?**

The area identified in the Speed Management Plan does not meet the high concentration of active road users to satisfy the benefit area criteria. It would also be considered a low risk area under NZTA risk management compared to high traffic volume roads such as Te Moana Road and Park Avenue. Traffic moments are relatively low on these streets (some would not have a traffic movement for 5 minutes or more) with most of the area characterised by very narrow streets with inherently calm traffic below. The area of Tutere street noted is already calmed with regular roundabouts and slow traffic generally 30kph or less. Instead of this low benefit area, the resources should be directed to high benefit areas where council have already identified excessive speed & unsafe conditions, particularly Te Moana Road from Park Avenue to Old SH1 where there is a very high concentration of active road users of around 7000 per day and Park Avenue itself.

Q15. **Do you agree with our proposed speed limit for Waikanae Town Centre?** You need to do more

Q16. **What feedback would you like to give us about the proposed speed limits at Waikanae Town Centre?**

The area identified for Waikanae Village needs to be considerably extended to meet the high benefit area criteria. If council is serious about speed management the area of focus for attention (saftey measures, traffic calming & a speed limit of 30 kph) should include the area around the village including both supermarkets, all three accesses to the park & ride rather than just the Marae Lane one and the main concentration of business / commercial & restaurant/ hospitality premises.

The Speed Management Plan notes that safe and appropriate speeds give people the best chance of survival. There are clearly major omissions with regards to Waikanae with Te Moana Road and Park Avenue which have high concentrations of active road users being completely ignored in the plan. Continuing to do so while including low traffic volume areas in Waikanae Beach is a significant oversight, goes right to heart of speed / traffic management and compromises the overall plan and objectives. Definitely brings into question the whole process.

Q1. **Do you agree with our proposed Speed Management Plan?**

No. The Speed Management Plan has completely ignored one of the highest risk areas in Waikanae, namely the section of Te Moana Road between the intersection of Park Avenue and Old SH1. This area of Te Moana Road is characterised by very high traffic volumes of around 7000 vehicles per day, excessive speeds as identified by council officers and yet had been specifically excluded. Council monitoring over the past 7 years has consistently recorded 75% to 80% of traffic exceeding 51kph with between 700 to 1000 vehicles per day travelling 60kph or above. Speeds of 70, 80, 90 are regularly recorded and occasionally in the range of 100 to 120 kph. It is without doubt a high benefit area with a high concentration of active road users. Council inaction to address multiple safety issues, some of which have been caused (according to advises our group have received from a TM expert) by using other than best practice in road marking design and not providing sufficient safe crossing points for pedestrians. Not including Te Moana Road in the Safety Management Plan significantly & further compromises the risk to all on & around Te Moana Road and ignores some of the key metrics on pedestrian safety published by NZTA. These include the fact that 75% of pedestrian accidents occur on roads with daily traffic volumes of above 2900 per day and the additional risk of this excessive speed. The speed management plan identifies the risk of death v impact speed of 70% at 50kph. With over 80% of traffic between 420 and 470 Te Moana Road (and similar to the West) travelling in excess of 50kph the risk to pedestrians, cyclists is above 70% risk of death and approaches 95% of death for the frequent traffic speeds in the 60 to 75 kph level. Te Moana Road contains early childhood centres, a retirement village, a good proportion of elderly, a Bowls club and is frequently used by primary and secondary school students to get to and from school. All these groups are defined as at risk by NZTA with above 65s having a similar risk profile to primary age children. Te Moana Road between Park Road and Old SH 1 must be included in the Speed Management Plan for urgent action between 2024 and 2027 if not sooner. To do otherwise would completely go against the core context of the Speed Management Plan to provide safe and appropriate speeds which is clearly not the case on this section of Te Moana Road currently.

The Te Moana Road Safety Group strongly advocate for the section of Te Moana Road between Park Avenue and Old SH1 to be included in the 2024 to 2027 Kapiti Coast Speed Management Plan with urgent attention given to effective practical physical traffic calming and pedestrian/ cyclist saftey measures to ensure the greater majority of vehicles travel under 50kph. Road markings to narrow the road carriageway, raised zebra crossings every 800 metres and prominent signage are seen as minimum requirements along with restrictions on heavy traffic using Te Moana Road as a through route.

Q16. **What feedback would you like to give us about the proposed speed limits at Waikanae Town Centre?**

The speed limit along the old Main Road between Te Moana Road and New World should be reduced from 50 kmh/hr. Motorists run the newly installed red lights outside Waikanae train station. If I wasn't careful I would have got bowled by a motorist who ignored a red light. Motorists still speed when entering / exiting the 50k/hr zone. I hear them from where I live and see them. This mainly happens outside daylight hours.

I would like to see something done about the traffic on Hemi Street, Waikanae. It has become busier and busier over the 8 years I have lived on the street, which has been compounded by a continual flow of heavy haulage, trucks, diggers and equipment to service new subdivisions at Waikanae North and latterly Manu Park. Trucks and tradies in their signwritten vehicles take the corner - both north and south bound from the old main road, and Parata street, at speed. Intercity coaches, Countdown and New World trucks all use Hemi Street in both directions. Some motorists cut the corner, making it hazardous for anyone crossing the road with a pushchair, pram, dog, or walking alone. Last week someone took the corner so fast they left tyre marks on the grass outside 2 Hemi Street.

Q1. **Do you agree with our proposed Speed Management Plan?**

While I support the proposals for variable 30km speed restrictions around schools immediately before and after schools, I do not agree with permanent restrictions, where a school is the driver for the reduction. The use of a school being the incentive to reduce speed limits, should not be used to just implement speed limits reductions across the wider Kapiti road network by stealth. Any speed limit reductions need to be aimed to address an actual issue and be imposed only when applicable. While variable restrictions (immediately before and after school) directly adjacent to schools makes sense, imposing permanent restrictions that is required 4.5% of the time does not (based on 396hrs per year, an hour before and after school for the 198 school days, out of the 8,760hrs in the year). An example is Te Rā Waldorf School and Te Rāwhiti Kindergarten proposal

I support a variable restriction of 30km in this area, but not the proposed permanent reduction that is proposed. There are no other reasons that would prompt reduced speed in this area outside the period immediately before and after school. I am at a loss as to understanding what would have initiated the proposed permanent 30km speed limit as this was neither highlighted in the report nor obvious to anyone in the area, especially as this is not built up or has any other facilities with access from this stretch of road. The reduced speed limit will cause frustration for any driver using this road for the reasons listed above.
