

PROPOSED PLAN CHANGE 1C - CYCLE PARKING REQUIREMENTS

These proposed changes address the implications for the provision of cycle parking of the National Policy Statement – Urban Development 2020 (NPS-UD 2020) direction that car parking requirements must be removed from the Council’s District Plan.

Clause 3.38 of the NPS-UD 2020 directs that all objectives, policies, rules, or assessment criteria that have the effect of requiring on-site car parking in any development must be removed from the Council’s Plan, except in respect of accessible car parks. Clause 3.38 states:

- (1) If the district plan of a tier 1, 2, or 3 territorial authority contains objectives, policies, rules, or assessment criteria that have the effect of requiring a minimum number of car parks to be provided for a particular development, land use, or activity, the territorial authority must change its district plan to remove that effect, other than in respect of accessible car parks.*
- (2) Territorial authorities must make any changes required by subclause (1) without using a process in Schedule 1 of the Act.*
- (3) Nothing in this National Policy Statement prevents a district plan including objectives, policies, rules, or assessment criteria:
 - (a) requiring a minimum number of accessible car parks to be provided for any activity; or*
 - (b) relating to parking dimensions or manoeuvring standards to apply if:
 - (i) a developer chooses to supply car parks; or*
 - (ii) when accessible car parks are required***

The direction in NPS-UD 2020 clause 3.38 applies to all Tier 1, 2 and 3 local authorities. Kāpiti Coast District is part of the Wellington Tier 1 urban environment defined in the Appendix to the NPS-UD 2020.

Clause 4.1 of the NPS-UD directs that the Council must give effect to clause 3.38 and remove all the provisions requiring general car parking by 20 February 2022.

The Council proposes to give effect to Clause 3.38 of the NPS-UD 2020 by deleting all of the car parking requirements by this date. However, removal of the car parking rules from the Plan will mean that the basis for calculating required cycle parks will also be removed from the Plan. The Council has taken this opportunity to also review the number of cycle parks required for certain land use requirements and the design and layout requirements for cycle parks.

The Council proposes amendments to replace the Plan’s cycle parking provisions as follows:

In the following District Plan provisions:

1. Text that is struck through (~~example~~) is to be deleted from the District Plan
2. Text that is underlined (example) is to be inserted into the District Plan.
